

Land at Clear Farm, South End, Bassingbourn assessment

A map of Land at Clear Farm, South End, Bassingbourn

Site information	-
Site ID	116046
HELAA Site ID	40204
Suitable Site Area (ha)	1.97
Ward/Parish	Bassingbourn
Greenfield or Previously Developed?	Greenfield
Category of site	Dispersal: Villages
Category of settlement	Within or adjacent to Minor Rural Centre
Current use(s)	-
Proposed development	Residential
Proposed employment floorspace (m2)	0
Proposed residential capacity	59
Suitability	-
Adopted Development Plan Policies RAG 2025	Amber

Adopted Development Plan Policies Comment 2025	Development of the site has some potential policy constraints, but these could be overcome through the planning application process.
Flood Risk RAG Assessment 2025	Amber
Flood Risk Officer Comment 2025	Flood Zone: Wholly in Flood Zone 1. Surface Water Flooding: 1% lies in a 1 in 100 year event. 1% lies in a 1 in 1000 year event
Flood Risk RAG Assessment 2023	-
Flood Risk Officer Comment 2023	-
Flood Risk RAG Assessment 2021	Amber
Flood Risk Officer Comment 2021	The site is within flood zones 3a or 3b.
Landscape RAG Assessment 2025	-
Landscape Comment 2025	-
Landscape RAG Assessment 2023	-
Landscape Comment 2023	-
Landscape RAG Assessment 2021	Amber
Landscape Comment 2021	The site is a heavily vegetated agricultural field located in back land between South End Road and Spring Lane but with access corridors to both. The site is suitable for development but must include landscape mitigation at an appropriate width to filter views from the surrounding neighbours. Sufficient space should also be reserved within the site for large tree species to be planted to eventually create a layered view of roofs and treetops; this may require adjustment to numbers proposed to be achieved.
Biodiversity and Geodiversity RAG Assessment 2025	-
Biodiversity and Geodiversity Officer Comments 2025	-
Biodiversity and Geodiversity Guideline Comments 2025	-
Biodiversity and Geodiversity RAG Assessment 2023	-
Biodiversity and Geodiversity Officer Comments 2023	-
Biodiversity and Geodiversity Guideline Comments 2023	-
Biodiversity and Geodiversity RAG Assessment 2021	Amber

Biodiversity and Geodiversity Officer Comments 2021	Recreational impacts on nearby SSSIs to be considered. Boundary hedgerows, small section of watercourse and adjacent orchard/woodland may qualify as Habitats of Principal Importance/priority habitat and/or be of high ecological value. Arable habitats likely of low ecological value. Boundary habitats may support protected species. Farmland bird populations may be present.
Biodiversity and Geodiversity Guideline Comments 2021	Development of the site may have a detrimental impact on a designated site, or those with a regional or local protection but the impact could be reasonably mitigated or compensated.
Policy RAG Rating 2025	-
Policy Officer Comment 2025	-
Historic Environment RAG Assessment 2025	-
Historic Environment Comments 2025	-
Historic Environment RAG Assessment 2023	-
Historic Environment Comments 2023	-
Historic Environment RAG Assessment 2021	Amber
Historic Environment Comments 2021	Likely impact to setting of, and views into and out of, Conservation Area, particularly from public footpaths through and adjacent to the site. Potential impact to immediate setting of Dovecote and wider setting of adjacent Listed Buildings, but the impact could be reasonably mitigated.

Flood Risk RAG Assessment 2021	Green
Flood Risk Officer Comment 2021	The site is at low risk of flooding (within flood zone 1) and no risk from surface water flooding
Landscape RAG Assessment 2025	-
Landscape Comment 2025	-
Landscape RAG Assessment 2023	-
Landscape Comment 2023	-
Landscape RAG Assessment 2021	Red
Landscape Comment 2021	The site is nearly 70 hectares of farmland between Bassingbourn and Kneesworth; long range views are currently possible with indivisibility between villages. Development of the scale proposed would unalterably change the character of Bassingbourn and Kneesworth and effectively merge the two villages. Views towards the south are expansive and extend to the hills surrounding and beyond Royston from The Causeway and should be retained.

Biodiversity and Geodiversity RAG Assessment 2023	-
Biodiversity and Geodiversity Officer Comments 2023	-
Biodiversity and Geodiversity Guideline Comments 2023	-
Biodiversity and Geodiversity RAG Assessment 2021	Amber

Biodiversity and Geodiversity Officer Comments 2021	Residential development above 25 dwellings or development with potential to cause air pollution would require consultation with Natural England. Recreational impacts on nearby SSSIs needs to be considered. Likely requirement for alternative green space provision. Boundary hedgerows and watercourse may qualify as Habitats of Principal Importance/priority habitat and/or be of high ecological value. Majority of site (arable) likely of low ecological value. Buildings and trees may support roosting bats (if suitable). Watercourse may have potential to support protected species e.g. water vole. Farmland bird populations likely to be present.
Biodiversity and Geodiversity Guideline Comments 2021	Development of the site may have a detrimental impact on a designated site, or those with a regional or local protection but the impact could be reasonably mitigated or compensated.
