

Land to the South of the A14 Services assessment

A map of Land to the South of the A14 Services

Site information	-
Site ID	115244
HELAA Site ID	200787
Suitable Site Area (ha)	6.67
Ward/Parish	Caxton & Papworth
Greenfield or Previously Developed?	Greenfield
Category of site	Dispersal: Villages / Transport Corridor
Category of settlement	Not within or adjacent to an existing settlement
Current use(s)	Agricultural Land / Building
Proposed development	Non-Residential
Proposed employment floorspace (m2)	21500-24000
Proposed residential capacity	0
Suitability	-
Adopted Development Plan Policies RAG 2025	Amber

Adopted Development Plan Policies Comment 2025	Development of the site has some potential policy constraints, but these could be overcome through the planning application process.
Flood Risk RAG Assessment 2025	Amber
Flood Risk Officer Comment 2025	Flood zone: Wholly in Flood Zone 1; Surface water flooding: 4% lies in a 1 in 30 year event, 7% lies in a 1 in 100 year event and 14% lies in a 1 in 1000 year event
Flood Risk RAG Assessment 2023	-
Flood Risk Officer Comment 2023	-
Flood Risk RAG Assessment 2021	-
Flood Risk Officer Comment 2021	-
Landscape RAG Assessment 2025	Amber
Landscape Comment 2025	The site has a more rural character than land closer to the Cambridge Services. Some harm to landscape character and views is likely to arise from development. A Landscape and Visual Impact Assessment and landscape mitigation is needed to guide proposals, including height, massing, screening and integration with the receiving landscape.
Landscape RAG Assessment 2023	-
Landscape Comment 2023	-
Landscape RAG Assessment 2021	-
Landscape Comment 2021	-
Biodiversity and Geodiversity RAG Assessment 2025	Amber
Biodiversity and Geodiversity Officer Comments 2025	Where there is a likelihood of protected and priority species being impacted a full assessment must be undertaken. A development of the type described would likely be eligible for mandatory biodiversity net gain.
Biodiversity and Geodiversity Guideline Comments 2025	Development of the site may have a detrimental impact on a designated site, protected habitats, priority species, or ecological assets with a regional or local protection, but the impact could be reasonably mitigated or compensated.
Biodiversity and Geodiversity RAG Assessment 2023	-
Biodiversity and Geodiversity Officer Comments 2023	-
Biodiversity and Geodiversity Guideline Comments 2023	-

Biodiversity and Geodiversity RAG Assessment 2021	-
Biodiversity and Geodiversity Officer Comments 2021	-
Biodiversity and Geodiversity Guideline Comments 2021	-
Policy RAG Rating 2025	Green
Policy Officer Comment 2025	Site is not on protected open space designation. Any impact of the proposed development could be reasonably mitigated or compensated. the site is wholly outside an open space designation,
Historic Environment RAG Assessment 2025	Amber
Historic Environment Comments 2025	This site sits to the north of Boxworth village and it's various heritage assets. The landscape is very open with long views from the main road. Tree belts partly screen the site but views of any potential development from the village would need to be provided. Development of the site could have a detrimental impact on a designated or non-designated heritage asset or the setting of a designated or non-designated heritage asset, but the impact could be reasonably mitigated.
Historic Environment RAG Assessment 2023	-
Historic Environment Comments 2023	-

Accessibility RAG Assessment 2025 - Automated	Red
Accessibility RAG Assessment 2025 - Officer Verified	-

Accessibility Comment 2025	Inadequate accessibility to key local services, transport, and employment opportunities. Proposed development would not require delivery of accompanying key services
Site Access RAG Assessment 2025	Red
Site Access Officer Comment 2025	The site has been scored as Red as the proposed highway frontage is unsuitable.
Site Access RAG Assessment 2023	-
Site Access Officer Comment 2023	-
Site Access RAG Assessment 2021	-
Site Access Officer Comment 2021	-
Transport and Roads RAG Assessment 2025	Amber
Transport and Roads Guideline Comments 2025	Any potential impact on the functioning of trunk roads and/or local roads could be reasonably mitigated. The development would need to provide mitigation to reduce the vehicle impact and encourage active travel and public transport use. A Transport Assessment and a Travel Plan will be required.
Transport and Roads RAG Assessment 2023	-
Transport and Roads Guideline Comments 2023	-
Transport and Roads RAG Assessment 2021	-
Transport and Roads Guideline Comments 2021	-
Noise, Vibration, Odour and Light Pollution RAG Assessment 2025	Amber
Noise, Vibration, Odour and Light Pollution Guideline Comments 2025	The site is capable of being developed to provide healthy internal and external environments in regard to noise / vibration/ odour/ Light Pollution after careful site layout, design and mitigation.
Noise, Vibration, Odour and Light Pollution RAG Assessment 2023	
Noise, Vibration, Odour and Light Pollution Guideline Comments 2023	-
Noise, Vibration, Odour and Light Pollution RAG Assessment 2021	-
Noise, Vibration, Odour and Light Pollution Guideline Comments 2021	-

AQMA RAG Assessment 2025	Green
Air Quality Officer Comment 2025	The site has been scored as Green. The site does not lie within an Air Quality Management Area (AQMA) and therefore will have minimal traffic impact on designated AQMAs.
AQMA RAG Assessment 2023	-
Air Quality Officer Comment 2023	-
AQMA RAG Assessment 2021	-
Air Quality Officer Comment 2021	-
Contaminated Land RAG Assessment 2025	Green
Contaminated Land Officer Comments 2025	The site is capable of being developed as there are unlikely to be any contamination / ground stability issues.
Contaminated Land RAG Assessment 2023	-

Site information	-
Site ID	115345
HELAA Site ID	48150
Suitable Site Area (ha)	1.38
Ward/Parish	Caxton & Papworth
Greenfield or Previously Developed?	Greenfield
Category of site	Dispersal: Villages
Category of settlement	Within or adjacent to Infill Village
Current use(s)	-
Proposed development	Residential
Proposed employment floorspace (m2)	0
Proposed residential capacity	20
Suitability	-
Adopted Development Plan Policies RAG 2025	Amber

Adopted Development Plan Policies Comment 2025	Development of the site has some potential policy constraints, but these could be overcome through the planning application process.
Flood Risk RAG Assessment 2025	Red
Flood Risk Officer Comment 2025	Flood Zone: Partly in Flood Zone 2 (4%). Partly in Flood Zone 3 (12%) Surface Water Flooding: 22% lies in a 1 in 30 year event. 7% lies in a 1 in 100 year event.
Flood Risk RAG Assessment 2023	-
Flood Risk Officer Comment 2023	-
Flood Risk RAG Assessment 2021	Red
Flood Risk Officer Comment 2021	The site is wholly or largely within Flood Zones 2 or 3 such that it cannot accommodate at least 5 additional dwellings or an increase of 500 square metres of employment floorspace and/or the site is a 'dry island' whereby all potential accesses to the adopted public highway require crossing land that is within Flood Zones 2 or 3.
Landscape RAG Assessment 2025	-
Landscape Comment 2025	-
Landscape RAG Assessment 2023	-
Landscape Comment 2023	-
Landscape RAG Assessment 2021	Amber
Landscape Comment 2021	A small site consisting of 2no. paddocks located to the north east of the village of Conington. It is a rural location outside and abutting the village framework. wide views are negligible and local views are filtered by boundary vegetation. Development upon this site would have a limited impact to the settlement character subject to landscape mitigation measures.
Biodiversity and Geodiversity RAG Assessment 2025	-
Biodiversity and Geodiversity Officer Comments 2025	-
Biodiversity and Geodiversity Guideline Comments 2025	-
Biodiversity and Geodiversity RAG Assessment 2023	-
Biodiversity and Geodiversity Officer Comments 2023	-
Biodiversity and Geodiversity Guideline Comments 2023	-

Biodiversity and Geodiversity RAG Assessment 2021	Amber
Biodiversity and Geodiversity Officer Comments 2021	All new housing developments will require an assessment of possible recreational impacts on nearby SSSIs. Boundary hedgerows, mature trees and pond may qualify as Habitats of Principal Importance/be of high ecological value and support protected or notable species. Grassland quality will need to be assessed. Ponds within site and nearby may support great crested newt - there are records within 50m. Applications may find provision of a 10% net gain in biodiversity difficult within their red line boundaries and may need to find off-site compensation to comply with up-coming National legislation and developing local policies.
Biodiversity and Geodiversity Guideline Comments 2021	Development of the site may have a detrimental impact on a designated site, or those with a regional or local protection but the impact could be reasonably mitigated or compensated.
Policy RAG Rating 2025	-
Policy Officer Comment 2025	-

Landscape Comment 2025	-
Landscape RAG Assessment 2023	-
Landscape Comment 2023	-
Landscape RAG Assessment 2021	Amber
Landscape Comment 2021	The site lies outside the Development Framework boundary and is subdivided into paddocks. Wider landscape views are negligible; however, local and amenity views would be impacted. To develop the whole of the site would be inconsistent with the local settlement character which is based on linear pattern. High density development would have a significant adverse impact and represent an encroachment into the countryside. However, with a reduction in residential units based on a linear pattern with limited infill the harm could be reduced. Landscape mitigation measures are required to reduce any adverse visual harm at this important gateway into the village.

Flood Risk Officer Comment 2023	-
Flood Risk RAG Assessment 2021	Amber
Flood Risk Officer Comment 2021	The site is within flood zones 3a or 3b.
Landscape RAG Assessment 2025	-
Landscape Comment 2025	-
Landscape RAG Assessment 2023	-
Landscape Comment 2023	-
Landscape RAG Assessment 2021	Red
Landscape Comment 2021	The site consists of gently undulating agricultural land between the villages of Conington, Elsworth and Hilton outside the Development Framework Boundary. Wide and local views are extensive due to the lack of vegetation and the topography of the land. Development of this site would have a significant adverse effect on the landscape character and be an encroachment into the countryside. There is limited scope to reduce residential units inclusive of landscape mitigation measures without causing a detrimental effect to the wider and local landscape character.

Biodiversity and Geodiversity Guideline Comments 2023	-

Biodiversity and Geodiversity RAG Assessment 2021	Amber
Biodiversity and Geodiversity Officer Comments 2021	All residential developments will require an assessment of recreational impacts on nearby SSSIs. Developments with potential to cause air pollution will also require consultation with Natural England. Boundary hedgerows, drains, woodland and mature trees may qualify as Habitats of Principal Importance/be of ecological value and support protected or notable species e.g. water vole. Arable habitats likely to be of low ecological value but may support farmland bird populations. Buildings may support roosting bats (if suitable). Ponds within 100m may support great crested newt - records of this species in close proximity.
Biodiversity and Geodiversity Guideline Comments 2021	Development of the site may have a detrimental impact on a designated site, or those with a regional or local protection but the impact could be reasonably mitigated or compensated.

Biodiversity and	Amber
Geodiversity RAG Assessment 2021	
Biodiversity and Geodiversity Officer Comments 2021	All housing developments will require assessment of increased visitor pressure on nearby SSSIs. Trees and boundary hedgerows may qualify as Habitats of Principal Importance/be of high ecological value and/or provide habitat for protected or notable species. Grassland diversity will need to be assessed. Pond within 25m may support great crested newt. Applications may find provision of a 10% net gain in biodiversity difficult within their red line boundaries and may need to find offsite compensation to comply with up-coming National legislation and developing local policies.
Biodiversity and Geodiversity Guideline Comments 2021	Development of the site may have a detrimental impact on a designated site, or those with a regional or local protection but the impact could be reasonably mitigated or compensated.

Landscape Comment 2023	-
Landscape RAG Assessment 2021	Green
Landscape Comment 2021	The site is an open area between the main development area of the village and the adjacent Home Farm. Because the site is slightly elevated, some good views are available to the south, but are rapidly cut off due to vegetation surrounding fields further out. Development of the site would fill a gap between areas of development which, if done in a contextual and sensitive way could be positive. Boundary treatments would need to be strengthened.

Biodiversity and Geodiversity RAG Assessment 2021	Green

Biodiversity and Geodiversity Officer Comments 2021	Recreational impacts on nearby SSSIs unlikely for low number of units and no other designated sites for nature conservation nearby. Unlikely to be Habitats of Principal Importance/priority habitats present, although occasional mature trees may have high ecological value. Pond within 20m to north may support great crested newt and trees may support roosting bats (if suitable).
Biodiversity and Geodiversity Guideline Comments 2021	Development of the site would not have a detrimental impact on any designated site, or those with a regional or local protection.

Available	-
Is the site controlled by a developer or landowner who has expressed an intention to develop?	The site was submitted by the landowner and/or site promoter who has confirmed that the site is available for development in the timescales indicated.
Are there known legal or ownership impediments to development?	No
Is there planning permission to develop the site?	No relevant recent planning history
When will the site be available for development?	0-5 Years
Available RAG	Green
Achievable	-
Is there a reasonable prospect that the site will be developed?	The land has been promoted by the landowner and or developer and is known to be available for development. The site has a low existing use value and residential development is likely to be economically viable at an appropriate density.
Achievable RAG	Green
Capacity	-

Prevailing Density (weighted) (dwellings per ha)	30
Residential capacity at prevailing density	6
Estimated employment space (m2)	0
Estimated start date	0-5 Years
Estimated annual build-out rate (pa)	40-75
Development completion timescales (years)	0-5 Years

Site information	-
Site ID	115352
HELAA Site ID	40428
Suitable Site Area (ha)	44.55
Ward/Parish	Caxton & Papworth
Greenfield or Previously Developed?	Greenfield
Category of site	Dispersal: Villages
Category of settlement	Within or adjacent to Minor Rural Centre
Current use(s)	-
Proposed development	Residential
Proposed employment floorspace (m2)	0
Proposed residential capacity	465-655
Suitability	-
Adopted Development Plan Policies RAG 2025	Amber

Adopted Development Plan Policies Comment 2025	Development of the site has some potential policy constraints, but these could be overcome through the planning application process.
Flood Risk RAG Assessment 2025	Amber
Flood Risk Officer Comment 2025	Flood Zone: Partly in Flood Zone 2 (3%). Partly in Flood Zone 3 (7%) Surface Water Flooding: 1% lies in a 1 in 30 year event. 1% lies in a 1 in 100 year event.
Flood Risk RAG Assessment 2023	-
Flood Risk Officer Comment 2023	-
Flood Risk RAG Assessment 2021	Amber
Flood Risk Officer Comment 2021	The site contains areas at high, or medium risk from surface water flooding and/or the site contains some land in Flood Zones 2 and/or 3 but there is sufficient land in Flood Zone 1 to accommodate at least 5 additional dwellings or an increase of 500 square metres of employment floorspace.
Landscape RAG Assessment 2025	-
Landscape Comment 2025	-
Landscape RAG Assessment 2023	Red
Landscape Comment 2023	New information updated Vision and Delivery study and a response to the 2020 HELAA assessment is provided. Not all of the site would be developed including the small site B to the north. However proposed development remains extensive, far outside development framework and set on a valley side falling over 10m w-e facing the village. There is some existing screening to the west, but evelopment would be highly visible in the local landscape and would remove the rural landscape charecter and setting to the west. Proposed numbers could mean 35-40 dph at the village edge. The distinctive landscape charecter of the stream valley village edge and village setting would be damaged or removed. Assessment remains as red.
Landscape RAG Assessment 2021	Red
Landscape Comment 2021	Development of both sites would have a significant adverse impact to the settlement of Papworth Everard, its landscape character and the designated landscape sites and views within the Papworth Village Design Guide. It would be an encroachment into the countryside, an urbanisation of the rural landscape and remove valuable green spaces / gaps and views. Even with a reduction in residential units the harm would be adverse and permanent.
