

Adopted Development Plan Policies Comment 2025	Development of the site has some potential policy constraints, but these could be overcome through the planning application process.
Flood Risk RAG Assessment 2025	Amber
Flood Risk Officer Comment 2025	Flood zone: Wholly in Flood Zone 1; Surface water flooding: 6% lies in a 1 in 100 year event and 26% lies in a 1 in 1000 year event

Flood Risk RAG Assessment 2021	-
Flood Risk Officer Comment 2021	-
Landscape RAG Assessment 2025	Amber
Landscape Comment 2025	The primary constraints on the site are the existing mature trees and open space (non-designated). The proposed uplift of 37 dwellings through redevelopment will put pressure on these resources and must be carefully managed, ensuring trees of higher quality and amenity uses are retained. The surrounding townscape has a strong character that is sensitive to unsympathetic change.

Landscape RAG Assessment 2021	-
Landscape Comment 2021	-
Biodiversity and Geodiversity RAG Assessment 2025	Green
Biodiversity and Geodiversity Officer Comments 2025	A development of the size and scale described would not provide any specific ecological risks to statutory or non-statutory designated sites. However, this does not remove the likelihood of protected and priority species being impacted, nor that a development of the type described would likely be eligible for mandatory biodiversity net gain.
Biodiversity and Geodiversity Guideline Comments 2025	Development of the site would not have a detrimental impact on any designated site, or those with a regional or local protection.

Biodiversity and Geodiversity Officer Comments 2021	-
Biodiversity and Geodiversity Guideline Comments 2021	-
Policy RAG Rating 2025	Green
Policy Officer Comment 2025	Site is not on protected open space designation. Any impact of the proposed development could be reasonably mitigated or compensated.
Historic Environment RAG Assessment 2025	Amber
Historic Environment Comments 2025	The site is within the New Town and Glisson Road Conservation Area. There is a building of local interest immediately adjacent on George VI Street and listed buildings nearby on Hills Road. Development of the site could have a detrimental impact on these heritage assets but the impact could be reasonably mitigated through design, massing and landscaping.

Transport and Roads RAG Assessment 2025	Amber
Transport and Roads Guideline Comments 2025	Any potential impact on the functioning of trunk roads and/or local roads could be reasonably mitigated. The development would need to provide mitigation to reduce the vehicle impact and encourage active travel and public transport use. A Transport Assessment and a Travel Plan will be required.

Noise, Vibration, Odour and Light Pollution RAG Assessment 2025	Green
Noise, Vibration, Odour and Light Pollution Guideline Comments 2025	Having regard to the nature, size, scale, location and character of the area, considered a negligible / low adverse noise constraint impact / effect risk on proposed residential occupiers having regard to existing noise sources - no objection. Demolition and construction impacts and potential operational noise for example Air Source Heat Pump/s (ASHP/s) etc a constraint but manageable to acceptable levels / effects via noise conditions.

Is the site controlled by a developer or landowner who has expressed an intention to develop?	The site was submitted by the landowner and/or site promoter who has confirmed that the site is available for development in the timescales indicated.
Are there known legal or ownership impediments to development?	No

Is there planning permission to develop the site?	No relevant recent planning history
When will the site be available for development?	0 to 5 years
Available RAG	Amber
Achievable	-
Is there a reasonable prospect that the site will be developed?	The land has been promoted by the landowner and or developer and is known to be available for development. The site has a low existing use value and development is likely to be economically viable
Achievable RAG	Green
Capacity	-
Prevailing Density (weighted) (dwellings per ha)	30
Residential capacity at prevailing density	22
Estimated employment space (m2)	0
Estimated start date	0-5 Years
Estimated annual build-out rate (pa)	40-75
Development completion timescales (years)	6-10 Years
