

Land off High Street, Little Abington assessment

A map of Land off High Street, Little Abington

Site information	-
Site ID	115915
HELAA Site ID	40289
Suitable Site Area (ha)	1.43133585865255
Ward/Parish	Linton
Greenfield or Previously Developed?	Greenfield
Category of site	Integrating homes and jobs - Southern cluster
Category of settlement	Within or adjacent to Group Village
Current use(s)	-
Proposed development	Residential
Proposed employment floorspace (m2)	0
Proposed residential capacity	26
Suitability	-
Adopted Development Plan Policies RAG 2025	Amber

Adamtad Davidanin ant	
Adopted Development Plan Policies Comment 2025	Development of the site has some potential policy constraints, but these could be overcome through the planning application process.
Flood Risk RAG Assessment 2025	Green
Flood Risk Officer Comment 2025	Flood Zone: Wholly in Flood Zone 1. Surface Water Flooding: None
Flood Risk RAG	-
Assessment 2023	
Flood Risk Officer Comment 2023	-
Flood Risk RAG Assessment 2021	Green
Flood Risk Officer Comment 2021	The site is at low risk of flooding (within flood zone 1) and no risk from surface water flooding
Landscape RAG Assessment 2025	-
Landscape Comment 2025	-
Landscape RAG Assessment 2023	-
Landscape Comment 2023	-
Landscape RAG Assessment 2021	Red
Landscape Comment 2021	Development to this site would have a significant adverse effect to the Important Countryside Frontage and local landscape character. It would be an encroachment into the countryside and a permanent urbanisation of the rural landscape. Even with a reduction of dwellings and their location offset from the High Street there would still be a significant adverse effect to both the landscape, views and visual amenity due to access requirements into the site.
Biodiversity and Geodiversity RAG Assessment 2025	-
Biodiversity and Geodiversity Officer Comments 2025	-
Biodiversity and Geodiversity Guideline Comments 2025	-
Biodiversity and Geodiversity RAG Assessment 2023	-

Adopted Development Plan Policies RAG 2025	Amber

Adopted Development Plan Policies Comment 2025	Development of the site has some potential policy constraints, but these could be overcome through the planning application process.
Flood Risk RAG Assessment 2025	Amber
Flood Risk Officer Comment 2025	Flood Zone: Wholly in Flood Zone 1. Surface Water Flooding: None
Flood Risk RAG Assessment 2023	-
Flood Risk Officer Comment 2023	-
Flood Risk RAG Assessment 2021	Amber
Flood Risk Officer Comment 2021	The site contains areas at high, or medium risk from surface water flooding and/or the site contains some land in Flood Zones 2 and/or 3 but there is sufficient land in Flood Zone 1 to accommodate at least 5 additional dwellings or an increase of 500 square metres of employment floorspace.
Landscape RAG Assessment 2025	-
Landscape Comment 2025	-
Landscape RAG Assessment 2023	-
Landscape Comment 2023	-
Landscape RAG Assessment 2021	Red
Landscape Comment 2021	This is a large open site within the centre of Little Abington and its settlement framework which is designated as A Protected Village Amenity Area. Development upon this site would have a significant adverse impact to the settlement character, visual amenity and Protected Village Amenity Area. It would not protect the character, amenity and existing open land within the village framework. There is little scope to reduce residential units with landscape mitigation measures without still having a significant adverse impact.
Biodiversity and Geodiversity RAG Assessment 2025	-

Biodiversity and Geodiversity Guideline Comments 2025	-
Biodiversity and Geodiversity RAG Assessment 2023	-
Biodiversity and Geodiversity Officer Comments 2023	-
Biodiversity and Geodiversity Guideline Comments 2023	-

Biodiversity and Geodiversity RAG Assessment 2021	Amber
Biodiversity and Geodiversity Officer Comments 2021	All new housing developments will require assessment of increased visitor pressure on nearby SSSI. There are no apparent priority habitats within the site; however, there are grasslands, hedges, and wooded boundaries on site that are likely to have ecological value. Applications may find provision of a 10% net gain in biodiversity difficult within their red line boundaries and may need to find off-site compensation to comply with up-coming National legislation and developing local policies.
Biodiversity and Geodiversity Guideline Comments 2021	Development of the site may have a detrimental impact on a designated site, or those with a regional or local protection but the impact could be reasonably mitigated or compensated.
Policy RAG Rating 2025	-
Policy Officer Comment 2025	-
Policy RAG Rating 2023	-
Policy Officer Comment 2023	-
Policy RAG Rating 2021	Red
Policy Officer Comments 2021	Site is located on protected open space (Protected Village Amenity Area). Development on protected open space is not acceptable in principle.
Historic Environment RAG Assessment 2025	-
Historic Environment Comments 2025	-
Historic Environment RAG Assessment 2023	-
Historic Environment Comments 2023	-
Historic Environment RAG Assessment 2021	Red
Historic Environment Comments 2021	Bancroft Farm historically formed a small group with St Mary's church which sat on the edge of Little Abington. The village has since grown around the farm but the open land to the centre has remained and provides a rural space to appreciate views into and out of the conservation areas. Development on this site would harm the character and setting of the conservation area and the Grade II Church View. This cannot be reasonably mitigated.

Landscape RAG	Amber
Assessment 2021	
Landscape Comment 2021	The site is a small field within the Hall Farm complex of buildings and constituting a piece of back land. It is unclear how access might be achieved on this site and this may impact on a TPO tree bank. The context of the immediate area suggest that the unit numbers may be too high for the site. The site is otherwise developable with little impact on views or character but is dependent on retention of trees, context awareness and access.

Landscape RAG Assessment 2021	Amber
Landscape Comment 2021	The site is outside and abutting the development framework. Views of the site are limited from both the local and wider landscape due to surrounding vegetation and dwellings. But amenity views are high from the east. Following appropriate landscape mitigation works the site is capable of accommodating a development. The strong rural character is to be protected and retained, development to be offset from boundary with buffer planting.

Adopted Development Plan Policies RAG 2025	Amber

Adopted Development Plan Policies Comment 2025	Development of the site has some potential policy constraints, but these could be overcome through the planning application process.
Flood Risk RAG Assessment 2025	Amber
Flood Risk Officer Comment 2025	Flood Zone: Partly in Flood Zone 2 (2%). Partly in Flood Zone 3 (2%) Surface Water Flooding: None
Flood Risk RAG	- Surface Water Flooding, None
Assessment 2023	
Flood Risk Officer Comment 2023	-
Flood Risk RAG Assessment 2021	Amber
Flood Risk Officer Comment 2021	The site is within flood zones 3a or 3b.
Landscape RAG Assessment 2025	-
Landscape Comment 2025	-
Landscape RAG Assessment 2023	Red
Landscape Comment 2023	New supporting text has been submitted but does not include any detail on landscape or any new information about landscape and therefore the assessment remains red.
Landscape RAG Assessment 2021	Red
Landscape Comment 2021	The site forms a prominent part of the landscape entrance to Linton, along with site 355 to the north, with wide, open views of the site available approaching the village on Back Road from the north west. The site is visually associated with the River Granta, valley woodlands landscape, and the historical fishponds and moat. It also forms a prominent part of the landscape setting of Linton from PROWs and viewpoints on Rivey Hill. Development on this site would introduce an isolated tongue of development, beyond the Development Framework, stretching into the countryside and would have unacceptable landscape and visual effects to the north western edge of Linton and the Valley and Rivey Hill landscapes. Even very limited development on this site would be difficult without causing landscape harm.

Biodiversity and	Development of the site may have a detrimental impact on a designated
Geodiversity Guideline	site, or those with a regional or local protection but the impact could be
Comments 2023	reasonably mitigated or compensated.
Biodiversity and Geodiversity RAG	Amber
Assessment 2021	
Biodiversity and Geodiversity Officer Comments 2021	All new housing developments will require assessment of increased visitor pressure on nearby SSSI. The southwest boundary of the site lies adjacent to the River Granta CWS, designated for not being grossly modified by pollution or canalisation, and supporting concentrations of pollard willows. The northern boundary lies adjacent (opposite side of the road) to the Furze Hills RSV CWS, which supports a population of a nationally rare plant species. There are priority deciduous woodlands registered on the 2014 National Forests Register along with floodplains grazing marsh adjacent to the River corridor There are no other apparent priority habitats within the site; however, there are grasslands, wooded areas, hedges, and wooded boundaries on site that are likely to have ecological value.
Biodiversity and Geodiversity Guideline Comments 2021	Development of the site may have a detrimental impact on a designated site, or those with a regional or local protection but the impact could be reasonably mitigated or compensated.
Policy RAG Rating 2025	-
Policy Officer Comment 2025	-
Policy RAG Rating 2023	-

Flood Risk Officer Comment 2021	The site is at low risk of flooding (within flood zone 1) and no risk from surface water flooding
Landscape RAG Assessment 2025	-
Landscape Comment 2025	-
Landscape RAG Assessment 2023	-
Landscape Comment 2023	-
Landscape RAG Assessment 2021	Red
Landscape Comment 2021	The site comprises part of two arable fields situated to the north-west of Linton. It occupies the lower slopes of an area of land which rises up towards the woodlands at Pains Pasture on the middle slopes of Rivey Hill. It forms an important part of the open, rolling Chalkland landscape setting when approaching Linton from the north-west, from PROWs to the east and north of the site and from views across Linton from the south west. A proposal for 95 dwellings was dismissed on appeal in March 2018 (S/0096/17/OL) with the Inspector concluding the site to be a 'Valued Landscape'. Even limited development on the site would block views to the rising and rolling landscape from Back Road, remove the foreground or mid-ground in more distant views and impact on the amenity and views from PROWs, especially the Icknield way. Development would be visible as a detracting element in the landscape over wide areas.

Archaeology Officer Comment 2021	The site has been subjected to a programme of archaeological evaluation, undertaken by a suitably accredited archaeological contractor in consultation with the Council's Archaeological advisors. (Cambridgeshire Historic Environment Team). The evaluation identified a Bronze Age funerary monument and associated cremation, and boundary features of Iron Age date. The evaluation results were verified by CHET staff and were taken into account in the appeal against SCDC's refusal of application ref. S/0096/17/OL. The Inspector recognised the significance of the archaeology, but concluded that this was not of sufficient significance to be considered as of equivalent status to Scheduled Monuments. Mitigation through excavation, recording and publication of the results would therefore be an acceptable mitigation strategy, to be undertaken by condition of planning permission.
