Adopted Development Plan Policies RAG 2025	Amber

Adopted Development Plan Policies Comment 2025	Development of the site has some potential policy constraints, but these could be overcome through the planning application process.
Flood Risk RAG Assessment 2025	Amber
Flood Risk Officer Comment 2025	Flood Zone: Partly in Flood Zone (1%). Surface Water Flooding: 1% lies in a 1 in 30 year event. 1% lies in a 1 in 100 year event. 2% lies in a 1 in 1000 year event
Flood Risk RAG Assessment 2023	-
Flood Risk Officer Comment 2023	-
Flood Risk RAG Assessment 2021	Amber
Flood Risk Officer Comment 2021	The site is within flood zones 3a or 3b.
Landscape RAG Assessment 2025	-
Landscape Comment 2025	-
Landscape RAG Assessment 2023	-
Landscape Comment 2023	-
Landscape RAG Assessment 2021	Red
Landscape Comment 2021	This is a large site which comprises several parcels of large arable land divided by Whaddon Gap. Generally, the site is well contained by hedgerow but has a range of views experienced from open to screened. The site lies outside of the Development Framework Boundary in the countryside. Preservation of the rural countryside character is important. Development here will detract from the existing, small scale village character.
Biodiversity and Geodiversity RAG Assessment 2025	-

Biodiversity and Geodiversity Guideline Comments 2025	-
Biodiversity and Geodiversity RAG Assessment 2023	-
Biodiversity and Geodiversity Officer Comments 2023	-
Biodiversity and Geodiversity Guideline Comments 2023	-

Biodiversity and Geodiversity RAG Assessment 2021	Amber
Biodiversity and Geodiversity Officer Comments 2021	Consultation with Natural England unlikely to be required, unless any habitats for barbastelle bats will be impacted (Eversden and Wimpole Woods SAC is 5.8km north). No other designated sites in close proximity. Boundary hedgerows, trees, watercourses and copses may be Habitats of Principal Importance/priority habitats and/or of high ecological value. Arable fields likely to be of low ecological value. Trees may have potential to support roosting bats and several ponds within 150m may have potential to support great crested newt. Watercourses may support protected species e.g. otter and water vole. Farmland bird populations likely to be present.
Biodiversity and Geodiversity Guideline Comments 2021	Development of the site may have a detrimental impact on a designated site, or those with a regional or local protection but the impact could be reasonably mitigated or compensated.

## Land at Frog End, Shepreth assessment

A map of Land at Frog End, Shepreth

Site information	-
Site ID	115828
HELAA Site ID	40085
Suitable Site Area (ha)	23.8868073044626
Ward/Parish	Melbourn
Greenfield or Previously Developed?	Greenfield
Category of site	Dispersal: Villages
Category of settlement	Within or adjacent to Infill Village
Current use(s)	-
Proposed development	Mixed Use
Proposed employment floorspace (m2)	3344
Proposed residential capacity	240
Suitability	-
Adopted Development Plan Policies RAG 2025	Amber

Adopted Development Plan Policies Comment 2025	Development of the site has some potential policy constraints, but these could be overcome through the planning application process.
Flood Risk RAG Assessment 2025	Amber
Flood Risk Officer Comment 2025	Flood Zone: Wholly in Flood Zone 1. Surface Water Flooding: 1% lies in a 1 in 100 year event. 3% lies in a 1 in 1000 year event
Flood Risk RAG Assessment 2023	-
Flood Risk Officer Comment 2023	-
Flood Risk RAG Assessment 2021	Amber
Flood Risk Officer Comment 2021	The site is within flood zones 3a or 3b.
Landscape RAG Assessment 2025	-
Landscape Comment 2025	-
Landscape RAG Assessment 2023	-
Landscape Comment 2023	-
Landscape RAG Assessment 2021	Red
Landscape Comment 2021	Development would significantly alter and harm the existing character of this small rural village and could effectively double the size of Shepreth. It would be an encroachment into the countryside, incongruous and an urbanisation of the rural landscape.
Biodiversity and Geodiversity RAG Assessment 2025	-
Biodiversity and Geodiversity Officer Comments 2025	-
Biodiversity and Geodiversity Guideline Comments 2025	-
Biodiversity and Geodiversity RAG Assessment 2023	Amber
Biodiversity and Geodiversity Officer Comments 2023	An Arboricultural Survey has been submitted, which indicates that no veteran trees are present within the site, but a number of trees contain potential bat roost features. No additional information has been provided in relation to ecology impacts and mitigation and therefore there is no change to the site assessment scoring.
Biodiversity and Geodiversity Guideline Comments 2023	Development of the site may have a detrimental impact on a designated site, or those with a regional or local protection but the impact could be reasonably mitigated or compensated.
Biodiversity and Geodiversity RAG Assessment 2021	Amber

Biodiversity and Geodiversity Officer Comments 2021	The site is adjacent to L-Moor, Shepreth SSSI, cited for its diverse and rich grassland communities and herbaceous plants, the adjacent chalk stream (River Rhee CWS) is noted for its good range of aquatic plants, and the site has been recognised for high value invertebrate life. Any new developments will require close consultation with Natural England, including assessment of increased visitor pressure on adjacent SSSI, and general direct and indirect impacts to SSSI cited features. The Guilden Brook lies adjacent to the southwest boundary of the site and directly feeds into the River Rhee CWS approximately 10m beyond the boundary. There are no apparent priority habitats within the site; however, there are hedges and wooded boundaries on site that are likely to have ecological value.
Biodiversity and Geodiversity Guideline Comments 2021	Development of the site may have a detrimental impact on a designated site, or those with a regional or local protection but the impact could be reasonably mitigated or compensated.
Policy RAG Rating 2025	-
Policy Officer Comment 2025	-
Policy RAG Rating 2023	-

## 44 North End and Land at Bury End Farm, North End, Meldreth assessment

A map of 44 North End and Land at Bury End Farm, North End, Meldreth

Site information	-
Site ID	115830
HELAA Site ID	40284
Suitable Site Area (ha)	2.40902334984233
Ward/Parish	Melbourn
Greenfield or Previously Developed?	Previously Developed Land
Category of site	Dispersal: Villages / Transport Corridor
Category of settlement	Within or adjacent to Group Village
Current use(s)	-
Proposed development	Residential
Proposed employment floorspace (m2)	0
Proposed residential capacity	25-30
Suitability	-
Adopted Development Plan Policies RAG 2025	Amber

Adopted Development Plan Policies Comment 2025	Development of the site has some potential policy constraints, but these could be overcome through the planning application process.
Flood Risk RAG Assessment 2025	Amber
Flood Risk Officer Comment 2025	Flood Zone: Wholly in Flood Zone 1. Surface Water Flooding: 1% lies in a 1 in 30 year event. 6% lies in a 1 in 100 year event. 14% lies in a 1 in 1000 year event
Flood Risk RAG Assessment 2023	-
Flood Risk Officer Comment 2023	-
Flood Risk RAG Assessment 2021	Green
Flood Risk Officer Comment 2021	The site is at low risk of flooding (within flood zone 1) and no risk from surface water flooding
Landscape RAG Assessment 2025	-
Landscape Comment 2025	-
Landscape RAG Assessment 2023	Amber
Landscape Comment 2023	New information provided show a reduction in unit numbers from 70 to circa 25-30. The changes both in land use and density would mean that development could be achieved without causing harm to landscape character. The assessment score remains amber as some form of landscape mitigation would be required.
Landscape RAG Assessment 2021	Amber
Landscape Comment 2021	Development here is suitable as the site is brownfield land and has already been built on so its location is not too sensitive. Development should aim to protect the character of the village and have sensitivity to the neighbouring Conservation Area character. Residential development with open space is appropriate here; it must reflect the surrounding character and a reduced density is needed to better integrate with the village. Screening needed to the south and southwest boundaries.
Biodiversity and Geodiversity RAG Assessment 2025	-
Biodiversity and Geodiversity Officer Comments 2025	-
Biodiversity and Geodiversity Guideline Comments 2025	-
Biodiversity and Geodiversity RAG Assessment 2023	Green
Biodiversity and Geodiversity Officer Comments 2023	No additional information has been provided in relation to ecology impacts and mitigation. However, housing numbers have been reduced to below 50 units, therefore the development is unlikely to result in determinantal impacts upon nearby SSSIs. Therefore, the RAG scoring of this assessment has been changed

Biodiversity and Geodiversity Guideline Comments 2023	Development of the site would not have a detrimental impact on any designated site, or those with a regional or local protection.
Biodiversity and Geodiversity RAG Assessment 2021	Amber
Biodiversity and Geodiversity Officer Comments 2021	Any residential development will require assessment of recreational impacts on nearby SSSIs. Consultation with Natural England required for developments of more than 50 dwellings outside of existing settlements. Boundaries, particularly to east, may qualify as Habitats of Principal Importance/priority habitats and be of high ecological value (e.g. orchard or hedgerow). Otherwise, site likely to low ecological value. Buildings and mature trees may support roosting bats or nesting birds and nearby waterbodies may support great crested newt (if suitable).
Biodiversity and Geodiversity Guideline Comments 2021	Development of the site would not have a detrimental impact on any designated site, or those with a regional or local protection.
Policy RAG Rating 2025	-
Policy Officer Comment 2025	-
Policy RAG Rating 2023	-
Policy Officer Comment 2023	-

Historic Environment RAG Assessment 2025	-
Historic Environment Comments 2025	-
Historic Environment RAG Assessment 2023	Amber
Historic Environment Comments 2023	The additional information has not given a layout or heights for the proposal. Therefore the comments made previously are still relevant to this site and does not change the assessment score.
Historic Environment RAG Assessment 2021	Amber
Historic Environment Comments 2021	Development of the site could have a detrimental impact on the setting of the Conservation Area and wider setting of the listed Mill and Mill House, but the impact could be reasonably mitigated.
Archaeology RAG Assessment 2025	-
Archaeology Officer Comment 2025	-
Archaeology RAG Assessment 2023	Amber
Archaeology Officer Comment 2023	Based on the amended information provided, the assessment for the site remains unchanged as Amber as there is evidence of archaeology in the area that will require further investigation.
Archaeology RAG Assessment 2021	Amber

Archaeology Officer Comment 2021	Located adjacent to a medieval moated site with associated enclosures to south
Accessibility RAG Assessment 2025 - Automated	Amber
Accessibility RAG Assessment 2025 - Officer Verified	-
Accessibility Comment 2025	Adequate accessibility to key local services, transport, and employment opportunities. Proposed development would not require delivery of accompanying key services
Site Access RAG Assessment 2025	-
Site Access Officer Comment 2025	-
Site Access RAG Assessment 2023	Amber
Site Access Officer Comment 2023	Based on the new information provided, the site access assessment remains unchanged. The proposed site is acceptable in principle, subject to detailed design at a planning application stage.
Site Access RAG Assessment 2021	Amber
Site Access Officer Comment 2021	The proposed site is acceptable in principle subject to detailed design.
Transport and Roads RAG Assessment 2025	-
Transport and Roads Guideline Comments 2025	-
Transport and Roads RAG Assessment 2023	Green
Transport and Roads Guideline Comments 2023	Based on the nature and scale of the proposed development, there are no substantial roads and transport impacts identified at this stage.
Transport and Roads RAG Assessment 2021	Amber
Transport and Roads Guideline Comments 2021	Any potential impact on the functioning of trunk roads and/or local roads could be reasonably mitigated.
Noise, Vibration, Odour and Light Pollution RAG Assessment 2025	-
Noise, Vibration, Odour and Light Pollution Guideline Comments 2025	-
Noise, Vibration, Odour and Light Pollution RAG Assessment 2023	Amber
Noise, Vibration, Odour and Light Pollution Guideline Comments 2023	New information provided has not changed the assessment. Detailed site specific assessments will be required for any future planning applications at this location.
Noise, Vibration, Odour and Light Pollution RAG Assessment 2021	Amber

Noise, Vibration, Odour and Light Pollution Guideline Comments 2021	The site is capable of being developed to provide healthy internal and external environments in regard to noise / vibration/ odour/ Light Pollution after careful site layout, design and mitigation.
AQMA RAG Assessment 2025	-
Air Quality Officer Comment 2025	-
AQMA RAG Assessment 2023	Green
Air Quality Officer Comment 2023	The additional information provided does not significantly affect air quality issues or mitigation. Therefore the assessment of the site remains unchanged since the original assessment. The site does not lie within an AQMA and there will be minimal impact on AQMA.
AQMA RAG Assessment 2021	Green
Air Quality Officer Comment 2021	Site does not lie within an AQMA. Minimal traffic impact on AQMA.
Contaminated Land RAG Assessment 2025	-
Contaminated Land Officer Comments 2025	-
Contaminated Land RAG Assessment 2023	Amber
Contaminated Land Officer Comments 2023	The new information has been reviewed but the assessment of the site remains unchanged. This is a site previously used as a turkey farm with the potential for contamination and planning conditions will be required.
Contaminated Land RAG Assessment 2021	Amber
Contaminated Land Officer Comments 2021	Site previously used as a turkey farm. Potential for contamination, conditions required.
Overall Suitability Score	Amber
Further constraints	-

## Land off Fenny Lane, Meldreth assessment

A map of Land off Fenny Lane, Meldreth

Site information	-
Site ID	115831
HELAA Site ID	40036
Suitable Site Area (ha)	4.01894095724454
Ward/Parish	Melbourn
Greenfield or Previously Developed?	Greenfield
Category of site	Dispersal: Villages / Transport Corridor
Category of settlement	Within or adjacent to Group Village
Current use(s)	-
Proposed development	Residential
Proposed employment floorspace (m2)	0
Proposed residential capacity	100
Suitability	-
Adopted Development Plan Policies RAG 2025	Amber

Adopted Development Plan Policies Comment 2025	Development of the site has some potential policy constraints, but these could be overcome through the planning application process.
Flood Risk RAG Assessment 2025	Red
Flood Risk Officer Comment 2025	Flood Zone: Partly in Flood Zone 3 (1%). Surface Water Flooding: None
Flood Risk RAG Assessment 2023	-
Flood Risk Officer Comment 2023	-
Flood Risk RAG Assessment 2021	Red
Flood Risk Officer Comment 2021	The site is wholly or largely within Flood Zones 2 or 3 such that it cannot accommodate at least 5 additional dwellings or an increase of 500 square metres of employment floorspace and/or the site is a 'dry island' whereby all potential accesses to the adopted public highway require crossing land that is within Flood Zones 2 or 3.
Landscape RAG Assessment 2025	-
Landscape Comment 2025	-
Landscape RAG Assessment 2023	Amber
Landscape Comment 2023	The proposed number of new homes has been reduced from 140 to 100 and the representation includes commitments to screening views from the north, integrating the existing stream and green infrastructure and careful design and layout in relation to the conservation area. However, due to the open nature of the site the RAG assessment remains Amber given that adverse landscape impacts would need to be mitigated as part of the development of the site.
Landscape RAG Assessment 2021	Amber
Landscape Comment 2021	The site is extremely well contained for the most part, opening up to the landscape via the north. Development would need to protect the character of the village, primarily the neighbouring Conservation Area character, and be appropriate to its setting here considering immediate surroundings of existing residential and agricultural style properties. The site is clearly visible from the north and open to the countryside from its northern boundary, this boundary in particular will therefore benefit screening.
Biodiversity and Geodiversity RAG Assessment 2025	-
Biodiversity and Geodiversity Officer Comments 2025	-
Biodiversity and Geodiversity Guideline Comments 2025	-
Biodiversity and Geodiversity RAG Assessment 2023	Amber

Biodiversity and Geodiversity Officer Comments 2023	Additional information has been submitted which notes further studies will need to be undertaken and potentially necessary mitigation measures introduced. Therefore there is no change to the assessment scoring.
Biodiversity and Geodiversity Guideline Comments 2023	Development of the site may have a detrimental impact on a designated site, or those with a regional or local protection but the impact could be reasonably mitigated or compensated.
Biodiversity and Geodiversity RAG Assessment 2021	Amber
Biodiversity and Geodiversity Officer Comments 2021	All new housing developments will require assessment of increased visitor pressure on nearby SSSI, and any residential development above 100 will require consultation with Natural England. There is a watercourse that runs adjacent to the western boundary that will require surveys and probable mitigation. There are no apparent priority habitats within the site; however, there are wooded areas, grasslands, hedges, and wooded boundaries on site that are likely to have ecological value. Applications may find provision of a 10% net gain in biodiversity difficult within their red line boundaries and may need to find offsite compensation to comply with up-coming National legislation and developing local policies. A reduction in housing density would be required to provide this within the boundary.
Biodiversity and Geodiversity Guideline Comments 2021	Development of the site may have a detrimental impact on a designated site, or those with a regional or local protection but the impact could be reasonably mitigated or compensated.
Policy RAG Rating 2025	-
Policy Officer Comment 2025	-
Policy RAG Rating 2023	-
Policy Officer Comment 2023	-
Policy RAG Rating 2021	Green
Policy Officer Comments 2021	Site is not on protected open space designation. Any impact of the proposed development could be reasonably mitigated or compensated.
Historic Environment RAG Assessment 2025	-
Historic Environment Comments 2025	-
Historic Environment RAG Assessment 2023	Amber
Historic Environment Comments 2023	The revised information highlights the need for an assessment of the surrounding heritage assets to assess potential impact of a development on this site. This will be a necessary measure however this statement does not change the original Amber RAG rating.
Historic Environment RAG Assessment 2021	Amber

Historic Environment Comments 2021	Meldreth was historically a long linear village. It has seen some development to the rear of older properties. Most modern development has been to the south of the village outside of the conservation area. Development on the scale proposed would see significant development to the north of the village close to the conservation area and has the potential to harm the setting of the listed buildings on North End and the character of the conservation area. The impact could be reasonably mitigated.
Archaeology RAG Assessment 2025	-
Archaeology Officer Comment 2025	-
Archaeology RAG Assessment 2023	Amber
Archaeology Officer Comment 2023	Based on the amended information provided, the assessment for the site remains unchanged as Amber as there is evidence of archaeology in the area that will require further investigation.
Archaeology RAG Assessment 2021	Amber
Archaeology Officer Comment 2021	Evidence of Roman/Saxon activity to the south east - Amber 2
Accessibility RAG Assessment 2025 - Automated	Amber
Accessibility RAG Assessment 2025 - Officer Verified	-
Accessibility Comment 2025	Adequate accessibility to key local services, transport, and employment opportunities.
Site Access RAG Assessment 2025	-
Site Access Officer Comment 2025	-
Site Access RAG Assessment 2023	Amber
Site Access Officer Comment 2023	Based on the new information provided, the proposed site is acceptable in principle subject to detailed design. The scheme can potentially provide two points of access.
Site Access RAG Assessment 2021	Red
Site Access Officer Comment 2021	If over 100 dwellings two points of access are required to accord with the advice of the Cambridgeshire Fire and Rescue.
Transport and Roads RAG Assessment 2025	-
Transport and Roads Guideline Comments 2025	-
Transport and Roads RAG Assessment 2023	Amber

Transport and Roads Guideline Comments 2023	Based on the amended proposal, the assessment score remains amber as although the site is within cycling distance of Meldreth Station, it will need to provide non motorised user links to the Station and into Cambridge. There are also potential issues at local junctions which will need mitigation.
Transport and Roads RAG Assessment 2021	Amber
Transport and Roads Guideline Comments 2021	Any potential impact on the functioning of trunk roads and/or local roads could be reasonably mitigated.
Noise, Vibration, Odour and Light Pollution RAG Assessment 2025	-
Noise, Vibration, Odour and Light Pollution Guideline Comments 2025	-
Noise, Vibration, Odour and Light Pollution RAG Assessment 2023	Green
Noise, Vibration, Odour and Light Pollution Guideline Comments 2023	New information provided has resulted in the assessment being changed from Amber to Green. The site is capable of being developed to provide healthy internal and external environments in regard to noise / vibration/ odour/ Light Pollution after careful site layout, design and mitigation.
Noise, Vibration, Odour and Light Pollution RAG Assessment 2021	Amber
Noise, Vibration, Odour and Light Pollution Guideline Comments 2021	The site is capable of being developed to provide healthy internal and external environments in regard to noise / vibration/ odour/ Light Pollution after careful site layout, design and mitigation.
AQMA RAG Assessment 2025	-
Air Quality Officer Comment 2025	-
AQMA RAG Assessment 2023	Green
Air Quality Officer Comment 2023	The additional information provided does not significantly affect air quality issues or mitigation. Therefore the assessment of the site remains unchanged since the original assessment. The site does not lie within an AQMA and there will be minimal traffic impact on AQMA.
AQMA RAG Assessment 2021	Green
Air Quality Officer Comment 2021	Site does not lie within an AQMA. Minimal traffic impact on AQMA.
Contaminated Land RAG Assessment 2025	-
Contaminated Land Officer Comments 2025	-
Contaminated Land RAG Assessment 2023	Amber

Contaminated Land Officer Comments 2023	The new information has been reviewed but the assessment of the site remains unchanged. This is a site previously in agricultural use with the potential for historic contamination and planning conditions will be required.
Contaminated Land RAG Assessment 2021	Amber
Contaminated Land Officer Comments 2021	Previous agricultural land use. Potential for historic contamination, conditions required.
Overall Suitability Score	Red
