Adopted Development Plan Policies Comment	Development of the site has some potential policy constraints, but these could be overcome through the planning application process.
Flood Risk RAG Assessment 2025	Green
Flood Risk Officer Comment 2025	Flood Zone: Wholly in Flood Zone 1. Surface Water Flooding: None
Flood Risk RAG Assessment 2023	-
Flood Risk Officer Comment 2023	-
Flood Risk RAG Assessment 2021	Green
Flood Risk Officer Comment 2021	The site is at low risk of flooding (within flood zone 1) and no risk from surface water flooding
Landscape RAG Assessment 2025	-
Landscape Comment 2025	-
Landscape RAG Assessment 2023	-
Landscape Comment 2023	-
Landscape RAG Assessment 2021	Red
Landscape Comment 2021	The site comprises a parcel of woodland adjacent to Melrose. Development is not appropriate here, although the immediate surroundings of existing residential properties in the east are a good contextual fit for the proposal of residential development, any development here will cause damage to the existing green infrastructure on site. It would be unsuitable to clear this woodland site for development as it aids the rural transition from the village extending into the countryside and forms part of a green edge to the village.

Biodiversity and Geodiversity RAG Assessment 2021	Amber

Biodiversity and	All new housing developments will require assessment of increased
Geodiversity Officer Comments 2021	visitor pressure on nearby SSSI. The whole site is denoted as deciduous woodland on the National Forest Inventory 2014 and, therefore, regarded as priority habitat. There are no other apparent priority habitats within the site; however, there are grasslands and hedges on site that are also likely to have ecological value. Applications may find provision of a 10% net gain in biodiversity difficult within their red line boundaries and may need to find offsite compensation to comply with up-coming National legislation and developing local policies.
Biodiversity and Geodiversity Guideline Comments 2021	Development of the site may have a detrimental impact on a designated site, or those with a regional or local protection but the impact could be reasonably mitigated or compensated.

Landscape RAG Assessment 2025	-
Landscape Comment 2025	-
Landscape RAG Assessment 2023	Red
Landscape Comment 2023	The new information provided does not alter the initial assessment, as development of the site will impact the separation between Meldreth and Melbourn.
Landscape RAG Assessment 2021	Red
Landscape Comment 2021	Development throughout this site would have a significant adverse impact to the existing settlement character, an encroachment into the landscape, permanent and removal an existing paddock upon the edge of the existing settlement. Development would also cause a creep of development towards the A10 joining Meldreth to the Industrial/Agricultural site on the other side of the A10. This creep may create precedent for further development which may further diminish the separation between Meldreth and Melbourn. Development has the potential to change the character of the edge of the village and extend its urban edge up to A10 and beyond.

Flood Risk Officer Comment 2021	-
Landscape RAG Assessment 2025	-
Landscape Comment 2025	-
Landscape RAG Assessment 2023	Amber
Landscape Comment 2023	The site is a paddock and stables at the end of a lane west of Meldreth, outside the Development Framework. A stream and hedgerow are located on the southeast edge of the site and the hedgerow has a TPO. Small scale, sensitive development could be accommodated providing that existing trees and hedges are retained and the stream is integrated into the design.
Landscape RAG Assessment 2021	-
Landscape Comment 2021	-
Biodiversity and Geodiversity RAG Assessment 2025	-
Biodiversity and Geodiversity Officer Comments 2025	-
Biodiversity and Geodiversity Guideline Comments 2025	-
Biodiversity and Geodiversity RAG Assessment 2023	Amber
Biodiversity and Geodiversity Officer Comments 2023	Discharge to ground or surface water of more than 20m³ per day would require consultation with Natural England. There are no apparent Priority habitats within the site; however, there are grasslands, hedges, and wooded boundaries on site that are likely to have ecological value. Applications may find provision of a 10% net gain in biodiversity difficult within their redline boundaries.
Biodiversity and Geodiversity Guideline Comments 2023	Development of the site may have a detrimental impact on a designated site, or those with a regional or local protection but the impact could be reasonably mitigated or compensated.

Biodiversity and Geodiversity RAG Assessment 2023	-
Biodiversity and Geodiversity Officer Comments 2023	-
Biodiversity and Geodiversity Guideline Comments 2023	-
Biodiversity and Geodiversity RAG Assessment 2021	Amber

Biodiversity and Geodiversity Officer Comments 2021	All new housing developments will require assessment of increased visitor pressure on nearby SSSI. The whole site is shown as primary woodland habitat and registered on the 2014 National Forest Inventory. Aerial photography from 2013 shows a plantation woodland on site; however aerial photography from September 2019 shows that this has now been cleared. The site now looks to contain grasslands, wooded areas, hedges, and wooded boundaries that are still likely to have ecological value. Applications may find provision of a 10% net gain in biodiversity difficult within their red line boundaries and may need to find offsite compensation to comply with up-coming National legislation and developing local policies.
Biodiversity and Geodiversity Guideline Comments 2021	Development of the site may have a detrimental impact on a designated site, or those with a regional or local protection but the impact could be reasonably mitigated or compensated.

Landscape RAG Assessment 2025	-
Landscape Comment 2025	_
Landscape RAG Assessment 2023	Amber
Landscape Comment 2023	Additional information submitted alters the site boundaries and proposes a reduction in number of units. Based on this, there is no change to the assessment scoring as mitigation measures would still need to be implemented to avoid adverse landscape impacts.
Landscape RAG Assessment 2021	Amber
Landscape Comment 2021	The immediate surroundings consist of residential properties, an orchard, fam buildings and large arable fields. Development may be considered suitable if deemed sensitive to the village edge character. The site is clearly visible from the east and south and is therefore highly sensitive. The sites boasts good existing green infrastructure along the northern and western boundaries, and integration of green infrastructure with development will be integral to the success of this site.
Biodiversity and Geodiversity RAG Assessment 2025	-
Biodiversity and Geodiversity Officer Comments 2025	-

Historic Environment RAG Assessment 2023	Green
Historic Environment Comments 2023	The amended boundary does not affect any heritage assets and the RAG rating remains the same.
Historic Environment RAG Assessment 2021	Green
Historic Environment Comments 2021	Development of the site would have either a neutral or positive impact, but importantly not have a detrimental impact on any designated or non-designated heritage assets.
Archaeology RAG Assessment 2025	-
Archaeology Officer Comment 2025	-
Archaeology RAG Assessment 2023	Amber
Archaeology Officer Comment 2023	Based on the amended information provided, the assessment for the site remains unchanged as Amber as there is evidence of archaeology in the area that will require further investigation.
Archaeology RAG Assessment 2021	Amber

Archaeology Officer Comment 2021	Extensive cropmarks are recorded to the east and south of the site, indicating enclosures of probable Iron Age date and Bronze Age funerary monuments. Elements of this landscape have been identified extending into the proposal area.
Accessibility RAG Assessment 2025 - Automated	Green
Accessibility RAG Assessment 2025 - Officer Verified	-
Accessibility Comment 2025	Good accessibility to key local services, transport, and employment opportunities. Proposed development would not require delivery of accompanying key services
Site Access RAG Assessment 2025	-
Site Access Officer Comment 2025	-
Site Access RAG Assessment 2023	Red
Site Access Officer Comment 2023	Based on the new information provided, the site access assessment remains unchanged. The site is unacceptable. The Local Highways Authority would require a minimum 9.5metre width for the entire length of motor vehicular access
Site Access RAG Assessment 2021	Red
Site Access Officer Comment 2021	The proposed site does not to have a direct link to the adopted public highway.
Transport and Roads RAG Assessment 2025	-
Transport and Roads Guideline Comments 2025	-
Transport and Roads RAG Assessment 2023	Amber
Transport and Roads Guideline Comments 2023	Based on the new information provided, the assessment scoring remains Amber as the site is within cycling distance of Meldreth Station. Will need to provide non-motorised user links to the Station and links into Cambridge via the Melbourn Greenway. Will have an impact on local junctions.
Transport and Roads RAG Assessment 2021	Amber
Transport and Roads Guideline Comments 2021	Any potential impact on the functioning of trunk roads and/or local roads could be reasonably mitigated.
Noise, Vibration, Odour and Light Pollution RAG Assessment 2025	-
Noise, Vibration, Odour and Light Pollution Guideline Comments 2025	-
Noise, Vibration, Odour and Light Pollution RAG Assessment 2023	Amber

Noise, Vibration, Odour and Light Pollution Guideline Comments 2023	New information provided has not changed the assessment. The site is capable of being developed to provide healthy internal and external environments in regard to noise / vibration/ odour/ Light Pollution after careful site layout, design and mitigation. Detailed site specific assessments will be required for any future planning applications at this location.
Noise, Vibration, Odour and Light Pollution RAG Assessment 2021	Green
Noise, Vibration, Odour and Light Pollution Guideline Comments 2021	The site is capable of being developed to provide healthy internal and external environments in regard to noise / vibration/ odour/ Light Pollution after careful site layout, design and mitigation
AQMA RAG Assessment 2025	-
Air Quality Officer Comment 2025	-
AQMA RAG Assessment 2023	Amber
Air Quality Officer Comment 2023	The amended site boundary has been reviewed but the assessment remains unchanged since the original assessment. The site is located outside AQMA but there is potential for an impact on AQMA which will require inherent / intrinsic designed in Air Quality mitigation.
AQMA RAG Assessment 2021	Amber
Air Quality Officer Comment 2021	Reasonably large site and lots of residential units - potential for AQMA traffic impact without mitigation
Contaminated Land RAG Assessment 2025	-
Contaminated Land Officer Comments 2025	-
Contaminated Land RAG Assessment 2023	Amber
Contaminated Land Officer Comments 2023	The revised site boundary has been reviewed but the assessment remains unchanged. This is a site with the potential for historic contamination and planning conditions will be required.
Contaminated Land RAG Assessment 2021	Amber
Contaminated Land Officer Comments 2021	Potential for historic contamination, conditions required.
Overall Suitability Score	Red

Available	-
Is the site controlled by a developer or landowner who has expressed an intention to develop?	The site was submitted by the landowner and/or site promoter who has confirmed that the site is available for development in the timescales indicated.
Are there known legal or ownership impediments to development?	No
Is there planning permission to develop the site?	No relevant recent planning history
When will the site be available for development?	0-5 Years
Available RAG	Green
Achievable	-
Is there a reasonable prospect that the site will be developed?	The land has been promoted by the landowner and or developer and is known to be available for development. The site has a low existing use value and residential development is likely to be economically viable at an appropriate density.
Achievable RAG	Green

Development completion timescales (years)	6-10 Years

# Land east side of Cambridge Road, Melbourn assessment

### A map of Land east side of Cambridge Road, Melbourn

Site information	-
Site ID	115990
HELAA Site ID	47757
Suitable Site Area (ha)	38.4324017237948
Ward/Parish	Melbourn
Greenfield or Previously Developed?	Greenfield
Category of site	Dispersal: Villages
Category of settlement	Not within or adjacent to an existing settlement
Current use(s)	-
Proposed development	Residential
Proposed employment floorspace (m2)	0
Proposed residential capacity	400
Suitability	-
Adopted Development Plan Policies RAG 2025	Amber

Adopted Development Plan Policies Comment 2025	Development of the site has some potential policy constraints, but these could be overcome through the planning application process.
Flood Risk RAG Assessment 2025	Amber
Flood Risk Officer Comment 2025	Flood Zone: Wholly in Flood Zone 1. Surface Water Flooding: 1% lies in a 1 in 30 year event. 1% lies in a 1 in 100 year event. 3% lies in a 1 in 1000 year event
Flood Risk RAG Assessment 2023	-
Flood Risk Officer Comment 2023	-
Flood Risk RAG Assessment 2021	Amber
Flood Risk Officer Comment 2021	The site contains areas at high, or medium risk from surface water flooding and/or the site contains some land in Flood Zones 2 and/or 3 but there is sufficient land in Flood Zone 1 to accommodate at least 5 additional dwellings or an increase of 500 square metres of employment floorspace.
Landscape RAG Assessment 2025	-
Landscape Comment 2025	-
Landscape RAG Assessment 2023	Red
Landscape Comment 2023	Additional information includes a site suitability report and further representations containing a framework masterplan. This development would have significant adverse impact upon the landscape character and views. Even with a reduction in residential numbers and landscape mitigation measures the impact would still be adverse and appear incongruous with the rural landscape therefore there is no change to the RAG assessment.
Landscape RAG Assessment 2021	Red
Landscape Comment 2021	Development throughout the site would have a significant adverse impact to the wide and local landscape character. It would be permanent, encroachment into the countryside, isolated and removal of the strong open rural landscape. Even with a reduction in residential units with landscape mitigation works the harm would still be adverse and unacceptable
Biodiversity and Geodiversity RAG Assessment 2025	-
Biodiversity and Geodiversity Officer Comments 2025	-
Biodiversity and Geodiversity Guideline Comments 2025	-
Biodiversity and Geodiversity RAG Assessment 2023	Amber

Biodiversity and	No detailed information has been provided in relation to ecology
Geodiversity Officer Comments 2023	impacts and mitigation and therefore there is no change to the site assessment scoring.
Biodiversity and Geodiversity Guideline Comments 2023	Development of the site may have a detrimental impact on a designated site, or those with a regional or local protection but the impact could be reasonably mitigated or compensated.
Biodiversity and Geodiversity RAG Assessment 2021	Amber
Biodiversity and Geodiversity Officer Comments 2021	All residential developments will require consideration of recreational impact on nearby SSSIs. Boundary habitats including woodland, watercourse, trees and hedges may qualify as Habitats of Principal Importance/be of high ecological value and support protected or notable species. Grassland quality will need to be assessed. Applications may find provision of a 10% net gain in biodiversity difficult within their red line boundaries and may need to find off-site compensation to comply with up-coming National legislation and developing local policies.
Biodiversity and Geodiversity Guideline Comments 2021	Development of the site may have a detrimental impact on a designated site, or those with a regional or local protection but the impact could be reasonably mitigated or compensated.
Policy RAG Rating 2025	-
Policy Officer Comment 2025	-
Policy RAG Rating 2023	-
Policy Officer Comment 2023	-
Policy RAG Rating 2021	Green
Policy Officer Comments 2021	Site is not on protected open space designation. Any impact of the proposed development could be reasonably mitigated or compensated.
Historic Environment RAG Assessment 2025	-
Historic Environment Comments 2025	-
Historic Environment RAG Assessment 2023	Amber
Historic Environment Comments 2023	The additional information provided agrees with the original historic environment rating and so this remains the same.
Historic Environment RAG Assessment 2021	Amber
Historic Environment Comments 2021	There are no heritage assets within the site. Bran Ditch Scheduled Monument is close by to the south east, separated by woodland; however, any detrimental impact could be reasonably mitigated with the inclusion of suitable buffers.
Archaeology RAG Assessment 2025	-
Archaeology Officer Comment 2025	-
Archaeology RAG Assessment 2023	Amber
Archaeology Officer Comment 2023	Based on the additional information provided, the assessment for the site remains unchanged as Amber as there is evidence of archaeology in the area that will require further investigation.

Archaeology RAG Assessment 2021	Amber
Archaeology Officer Comment 2021	Extensive archaeology of prehistoric/Roman date is located in the area
Accessibility RAG Assessment 2025 - Automated	Amber
Accessibility RAG Assessment 2025 - Officer Verified	-
Accessibility Comment 2025	Adequate accessibility to key local services, transport, and employment opportunities. Proposed development would not require delivery of accompanying key services
Site Access RAG Assessment 2025	-
Site Access Officer Comment 2025	-
Site Access RAG Assessment 2023	Amber
Site Access Officer Comment 2023	Based on ther new information provided, the proposed site is acceptable in principle subject to detailed design. The scheme can potentially provide two points of access.
Site Access RAG Assessment 2021	Red
Site Access Officer Comment 2021	If over 100 dwellings two points of access are required to accord with the advice of the Cambridgeshire Fire and Rescue.
Transport and Roads RAG Assessment 2025	-
Transport and Roads Guideline Comments 2025	-
Transport and Roads RAG Assessment 2023	Amber
Transport and Roads Guideline Comments 2023	Based on the new information provided the Amber assessment remains unchanged. The site is within cycling distance of Meldreth Station. It will need to provide Non-Motorised User links to the Station and links into Cambridge via the Melbourn Greenway and high quality passenger transport links into Cambridge. The site will potentially have a significant impact on local junctions including the congested A10 and will therefore a robust Travel Plan.
Transport and Roads RAG Assessment 2021	Amber
Transport and Roads Guideline Comments 2021	Any potential impact on the functioning of trunk roads and/or local roads could be reasonably mitigated.
Noise, Vibration, Odour and Light Pollution RAG Assessment 2025	-
Noise, Vibration, Odour and Light Pollution Guideline Comments 2025	-

Noise, Vibration, Odour and Light Pollution RAG Assessment 2023	Amber
Noise, Vibration, Odour and Light Pollution Guideline Comments 2023	New information provided has not changed the assessment. The site is capable of being developed to provide healthy internal and external environments in regard to noise / vibration/ odour/ Light Pollution after careful site layout, design and mitigation. Detailed site specific assessments will be required for any future planning applications at this location.
Noise, Vibration, Odour and Light Pollution RAG Assessment 2021	Green
Noise, Vibration, Odour and Light Pollution Guideline Comments 2021	The site is capable of being developed to provide healthy internal and external environments in regard to noise / vibration/ odour/ Light Pollution after careful site layout, design and mitigation.
AQMA RAG Assessment 2025	-
Air Quality Officer Comment 2025	-
AQMA RAG Assessment 2023	Amber
Air Quality Officer Comment 2023	The additional information provided does not significantly affect air quality issues or mitigation. Therefore the assessment of the site remains unchanged since the original assessment. The site is located outside an AQMA but there is potential for an impact on AQMA which will require inherent / intrinsic designed in Air Quality mitigation.
AQMA RAG Assessment 2021	Amber
Air Quality Officer Comment 2021	Reasonably large site and lots of residential units - potential for AQMA traffic impact without mitigation

Landscape Comment 2025	-
Landscape RAG Assessment 2023	-
Landscape Comment 2023	-
Landscape RAG Assessment 2021	Red
Landscape Comment 2021	The site comprises an orchard and farmyard with two residential buildings and associated outbuildings. The site is very well contained in its rural location. The site is in the countryside and currently has enough screening on site to limit views of the site itself. Preservation of the rural countryside character is important. Residential development may be considered appropriate here when considering the similar nature of immediate surroundings of existing residential properties, however clearing of this orchard to facilitate this development is not a sustainable solution.
