

Land to the north of Mill Lane, Sawston assessment

A map of Land to the north of Mill Lane, Sawston

Site information	-
Site ID	115896
HELAA Site ID	40341
Suitable Site Area (ha)	7.1639978003474
Ward/Parish	Sawston
Greenfield or Previously Developed?	Greenfield
Category of site	Integrating homes and jobs - Southern cluster
Category of settlement	Within or adjacent to Rural Centre
Current use(s)	-
Proposed development	Residential
Proposed employment floorspace (m2)	0
Proposed residential capacity	225
Suitability	-
Adopted Development Plan Policies RAG 2025	Amber

Adopted Development Plan Policies Comment 2025	Development of the site has some potential policy constraints, but these could be overcome through the planning application process.
Flood Risk RAG Assessment 2025	Amber
Flood Risk Officer Comment 2025	Flood Zone: Wholly in Flood Zone 1. Surface Water Flooding: 1% lies in a 1 in 30 year event. 1% lies in a 1 in 100 year event. 1% lies in a 1 in 1000 year event
Flood Risk RAG Assessment 2023	-
Flood Risk Officer Comment 2023	-
Flood Risk RAG Assessment 2021	Amber
Flood Risk Officer Comment 2021	The site is within flood zone 2 (taking into account climate change) and/or is within an area at high, medium or low risk from surface water flooding.
Landscape RAG Assessment 2025	-
Landscape Comment 2025	-
Landscape RAG Assessment 2023	Red
Landscape Comment 2023	New information questions the previous helaa assessment but does not alter the initial proposal. Therefore it does not address our concerns regarding encroachment into the countryside, urbanisation of the rural landscape, the increase in the settlement and potential harm to the protected trees. The RAG rating remains red.
Landscape RAG Assessment 2021	Red
Landscape Comment 2021	Development throughout this site would have a significant adverse impact upon the landscape character. It would be an encroachment into the countryside, urbanisation of the rural landscape and a significant increase in the settlement. The site is dissected north to south by a band of trees covered by a Tree Preservation Order.
Biodiversity and Geodiversity RAG Assessment 2025	-
Biodiversity and Geodiversity Officer Comments 2025	-
Biodiversity and Geodiversity Guideline Comments 2025	-
Biodiversity and Geodiversity RAG Assessment 2023	-
Biodiversity and Geodiversity Officer Comments 2023	-
Biodiversity and Geodiversity Guideline Comments 2023	-

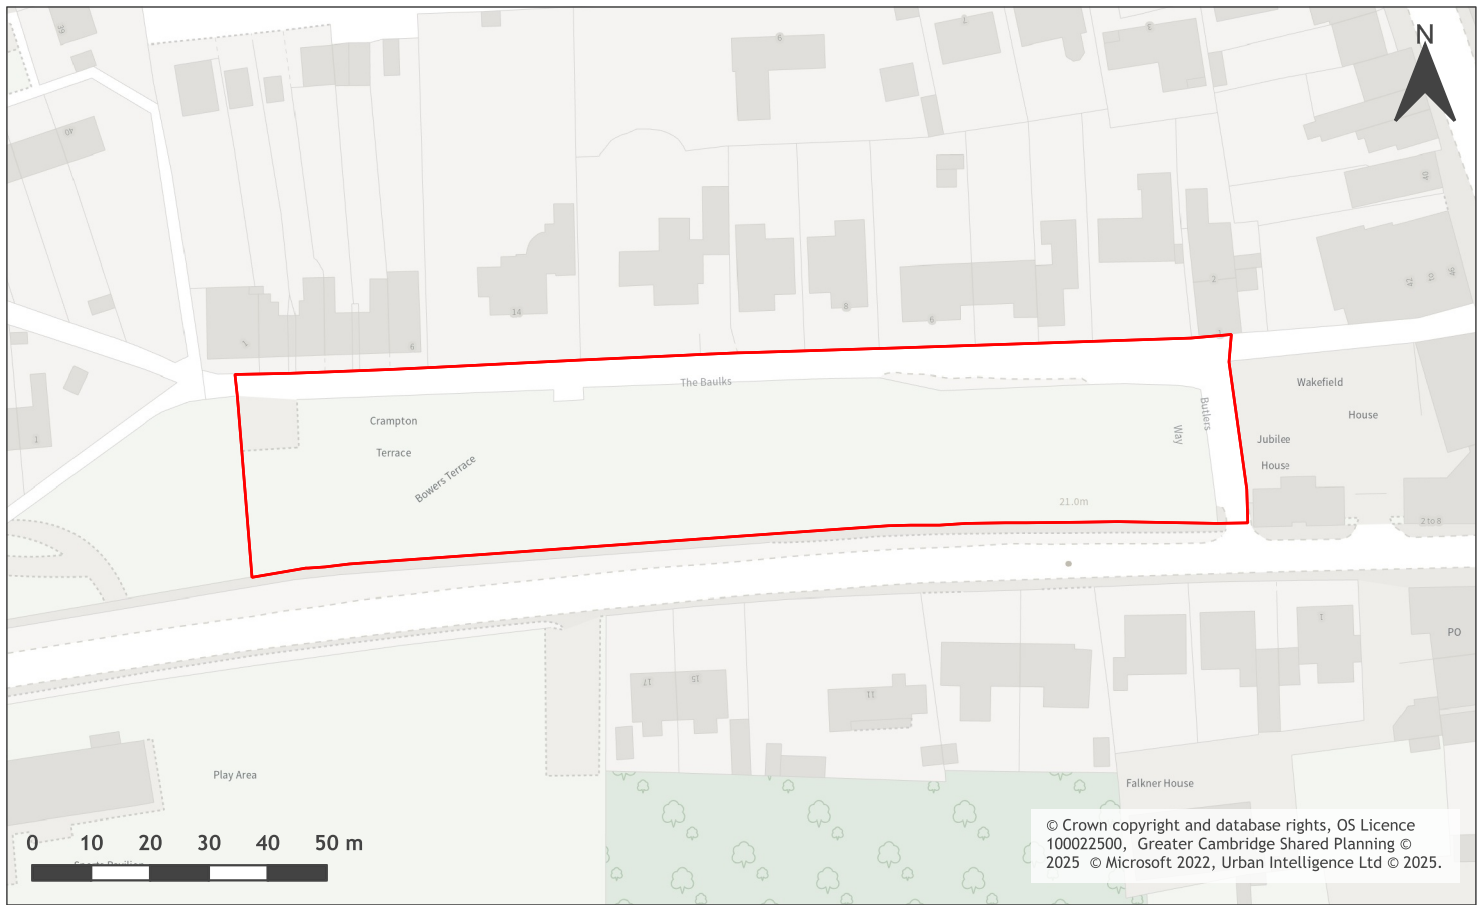

Biodiversity and Geodiversity RAG Assessment 2021	Amber
Biodiversity and Geodiversity Officer Comments 2021	Any residential development above 50 will require consultation with Natural England. No apparent priority habitat; however there are hedges and possibly a small copse within the boundary which will likely have ecological value.
Biodiversity and Geodiversity Guideline Comments 2021	Development of the site may have a detrimental impact on a designated site, or those with a regional or local protection but the impact could be reasonably mitigated or compensated.
Policy RAG Rating 2025	-
Policy Officer Comment 2025	-
Policy RAG Rating 2023	-
Policy Officer Comment 2023	-
Policy RAG Rating 2021	Green
Policy Officer Comments 2021	Site is not on a protected open space designation, however there are some protected open space designations on periphery of the site. Development of the site may have a detrimental impact on the peripheral open space designation, but the impact could be reasonably mitigated or compensated.
Historic Environment RAG Assessment 2025	-
Historic Environment Comments 2025	-
Historic Environment RAG Assessment 2023	-
Historic Environment Comments 2023	-
Historic Environment RAG Assessment 2021	Amber
Historic Environment Comments 2021	There are no major heritage concerns with development of this site, however development would need to pay special regard to the setting of the Grade II village college and its surroundings to the east of the site.
Archaeology RAG Assessment 2025	-
Archaeology Officer Comment 2025	-
Archaeology RAG Assessment 2023	-
Archaeology Officer Comment 2023	-
Archaeology RAG Assessment 2021	Amber
Archaeology Officer Comment 2021	Located on the western edge of the historic settlement with archaeology of medieval date recorded to the north
Accessibility RAG Assessment 2025 - Automated	Green

Accessibility RAG Assessment 2025 - Officer Verified	-
Accessibility Comment 2025	Good accessibility to key local services, transport, and employment opportunities. Proposed development would not require delivery of accompanying key services
Site Access RAG Assessment 2025	-
Site Access Officer Comment 2025	-
Site Access RAG Assessment 2023	Red
Site Access Officer Comment 2023	Based on the new information provided, the site access assessment remains unchanged. The proposed site is unacceptable. White Field Way is not an adopted public highway and therefore two points of access cannot be guaranteed as required.
Site Access RAG Assessment 2021	Red
Site Access Officer Comment 2021	If over 100 dwellings two points of access are required to accord with the advice of the Cambridgeshire Fire and Rescue.
Transport and Roads RAG Assessment 2025	-
Transport and Roads Guideline Comments 2025	-
Transport and Roads RAG Assessment 2023	-
Transport and Roads Guideline Comments 2023	-
Transport and Roads RAG Assessment 2021	Amber
Transport and Roads Guideline Comments 2021	Any potential impact on the functioning of trunk roads and/or local roads could be reasonably mitigated.
Noise, Vibration, Odour and Light Pollution RAG Assessment 2025	-
Noise, Vibration, Odour and Light Pollution Guideline Comments 2025	-
Noise, Vibration, Odour and Light Pollution RAG Assessment 2023	-
Noise, Vibration, Odour and Light Pollution Guideline Comments 2023	-
Noise, Vibration, Odour and Light Pollution RAG Assessment 2021	Amber
Noise, Vibration, Odour and Light Pollution Guideline Comments 2021	The site is capable of being developed to provide healthy internal and external environments in regard to noise / vibration/ odour/ Light Pollution after careful site layout, design and mitigation.
AQMA RAG Assessment 2025	-

Air Quality Officer Comment 2025	-
AQMA RAG Assessment 2023	-
Air Quality Officer Comment 2023	-
AQMA RAG Assessment 2021	Green
Air Quality Officer Comment 2021	Site does not lie within an AQMA. Minimal traffic impact on AQMA.

Suitability	-
Adopted Development Plan Policies RAG 2025	Amber

Adopted Development Plan Policies Comment 2025	Development of the site has some potential policy constraints, but these could be overcome through the planning application process.
Flood Risk RAG Assessment 2025	Amber
Flood Risk Officer Comment 2025	Flood Zone: Wholly in Flood Zone 1. Surface Water Flooding: 5% lies in a 1 in 100 year event. 6% lies in a 1 in 1000 year event
Flood Risk RAG Assessment 2023	-
Flood Risk Officer Comment 2023	-
Flood Risk RAG Assessment 2021	Amber
Flood Risk Officer Comment 2021	The site is within flood zone 2 (taking into account climate change) and/or is within an area at high, medium or low risk from surface water flooding.
Landscape RAG Assessment 2025	-
Landscape Comment 2025	-
Landscape RAG Assessment 2023	-
Landscape Comment 2023	-
Landscape RAG Assessment 2021	Red
Landscape Comment 2021	The site is located within the settlement of Sawston. Long distant views are negligible. Local and amenity views are high due to gappy nature around the site. Development upon this site would have a significant adverse effect to the existing PVAA in Sawston. New residential properties within the site would effect the existing character, open space and amenity of the village.
Biodiversity and Geodiversity RAG Assessment 2025	-
Biodiversity and Geodiversity Officer Comments 2025	-
Biodiversity and Geodiversity Guideline Comments 2025	-
Biodiversity and Geodiversity RAG Assessment 2023	-

Biodiversity and Geodiversity Guideline Comments 2023	-

Biodiversity and Geodiversity RAG Assessment 2021	Amber
Biodiversity and Geodiversity Officer Comments 2021	All residential developments would require an assessment of impacts on nearby SSSIs. Residential developments of over 50 dwellings or infrastructure over 1000m ² would require consultation with Natural England. Boundary features including trees, hedgerows and watercourses may qualify as Habitats of Principal Importance/be of high ecological value and support protected or notable species. Grassland diversity will need to be assessed. Applications may find provision of a net gain in biodiversity of a minimum of 10% difficult within their red line boundaries and may need to find off-site compensation. Pond within 60m may support great crested newt (if suitable).
Biodiversity and Geodiversity Guideline Comments 2021	Development of the site may have a detrimental impact on a designated site, or those with a regional or local protection but the impact could be reasonably mitigated or compensated.

Landscape RAG Assessment 2025	-
Landscape Comment 2025	-
Landscape RAG Assessment 2023	-
Landscape Comment 2023	-
Landscape RAG Assessment 2021	Red
Landscape Comment 2021	The site comprises several small parcels including Sawston riding school. Whilst there is existing built development on part of the site, development of the wider parcel would encroach into the countryside and remove some of the landscape buffer between the village and the A1301 Sawston bypass. It would also result in the loss of openness in the Green Belt and adversely affect the setting of the village.

Biodiversity and Geodiversity Guideline Comments 2025	-
Biodiversity and Geodiversity RAG Assessment 2023	-
Biodiversity and Geodiversity Officer Comments 2023	-
Biodiversity and Geodiversity Guideline Comments 2023	-

Biodiversity and Geodiversity RAG Assessment 2021	Amber
Biodiversity and Geodiversity Officer Comments 2021	Residential developments of 50+ dwellings would require consultation with Natural England. Boundary hedgerows/trees may qualify as Habitats of Principal Importance/be of high ecological value and support protected or notable species. Grassland quality will need to be assessed, but may be of low ecological value. Buildings may support roosting bats (if suitable).
Biodiversity and Geodiversity Guideline Comments 2021	Development throughout the whole site would have a significant adverse impact to the landscape character and views. It would be an encroachment into the countryside, permanent, removal of rural paddocks and an urbanisation of the rural landscape. However, with a significant reduction in units the harm could be reduced subject to landscape mitigation measures, including a new landscape buffer provided upon its western boundary to reflect existing settlement edge and new development to be offset from the western boundary to integrate into the landscape.

Site information	-
Site ID	115901
HELAA Site ID	40150
Suitable Site Area (ha)	0.876443838598782
Ward/Parish	Sawston
Greenfield or Previously Developed?	Greenfield and Previously Developed Land
Category of site	Integrating homes and jobs - Southern cluster
Category of settlement	Within or adjacent to Rural Centre
Current use(s)	-
Proposed development	Residential
Proposed employment floorspace (m2)	0
Proposed residential capacity	20
Suitability	-
Adopted Development Plan Policies RAG 2025	Amber

Adopted Development Plan Policies Comment 2025	Development of the site has some potential policy constraints, but these could be overcome through the planning application process.
Flood Risk RAG Assessment 2025	Amber
Flood Risk Officer Comment 2025	Flood Zone: Partly in Flood Zone 2 (1%). Surface Water Flooding: 1% lies in a 1 in 30 year event. 2% lies in a 1 in 1000 year event
Flood Risk RAG Assessment 2023	-
Flood Risk Officer Comment 2023	-
Flood Risk RAG Assessment 2021	Amber
Flood Risk Officer Comment 2021	The site is within flood zones 3a or 3b.
Landscape RAG Assessment 2025	-
Landscape Comment 2025	-
Landscape RAG Assessment 2023	-
Landscape Comment 2023	-
Landscape RAG Assessment 2021	Amber
Landscape Comment 2021	This site comprises a builders yard with a large area of parking, which is within the development framework, and extended land to the rear beyond the framework. Limited development, responding to the pattern and density of surrounding development and focused on the road frontage where there is existing development, with strengthened boundaries, would avoid significant landscape impacts. However, the wider site would encroach into the countryside and remove some of the landscape buffer between the village and the A1301 Sawston bypass. It would also result in the loss of openness of the adjoining Green Belt in the southern part of the site and surrounding land and adversely affect the setting of the village.

Adopted Development Plan Policies RAG 2025	Amber

Adopted Development Plan Policies Comment 2025	Development of the site has some potential policy constraints, but these could be overcome through the planning application process.
Flood Risk RAG Assessment 2025	Amber
Flood Risk Officer Comment 2025	Flood Zone: Wholly in Flood Zone 1. Surface Water Flooding: None
Flood Risk RAG Assessment 2023	-
Flood Risk Officer Comment 2023	-
Flood Risk RAG Assessment 2021	Amber
Flood Risk Officer Comment 2021	The site contains areas at high, or medium risk from surface water flooding and/or the site contains some land in Flood Zones 2 and/or 3 but there is sufficient land in Flood Zone 1 to accommodate at least 5 additional dwellings or an increase of 500 square metres of employment floorspace.
Landscape RAG Assessment 2025	-
Landscape Comment 2025	-
Landscape RAG Assessment 2023	-
Landscape Comment 2023	-
Landscape RAG Assessment 2021	Amber
Landscape Comment 2021	The site is outside of the Development Framework Boundary and therefore in the countryside. Preservation of the rural countryside character is important and so boundary treatment will be important. Development in this location must reflect density and pattern of the existing village. Development here should retain the distinctive, settlement pattern. Implementation of green infrastructure and site boundaries are to be strengthened for mitigation purposes.

Biodiversity and Geodiversity Guideline Comments 2023	-

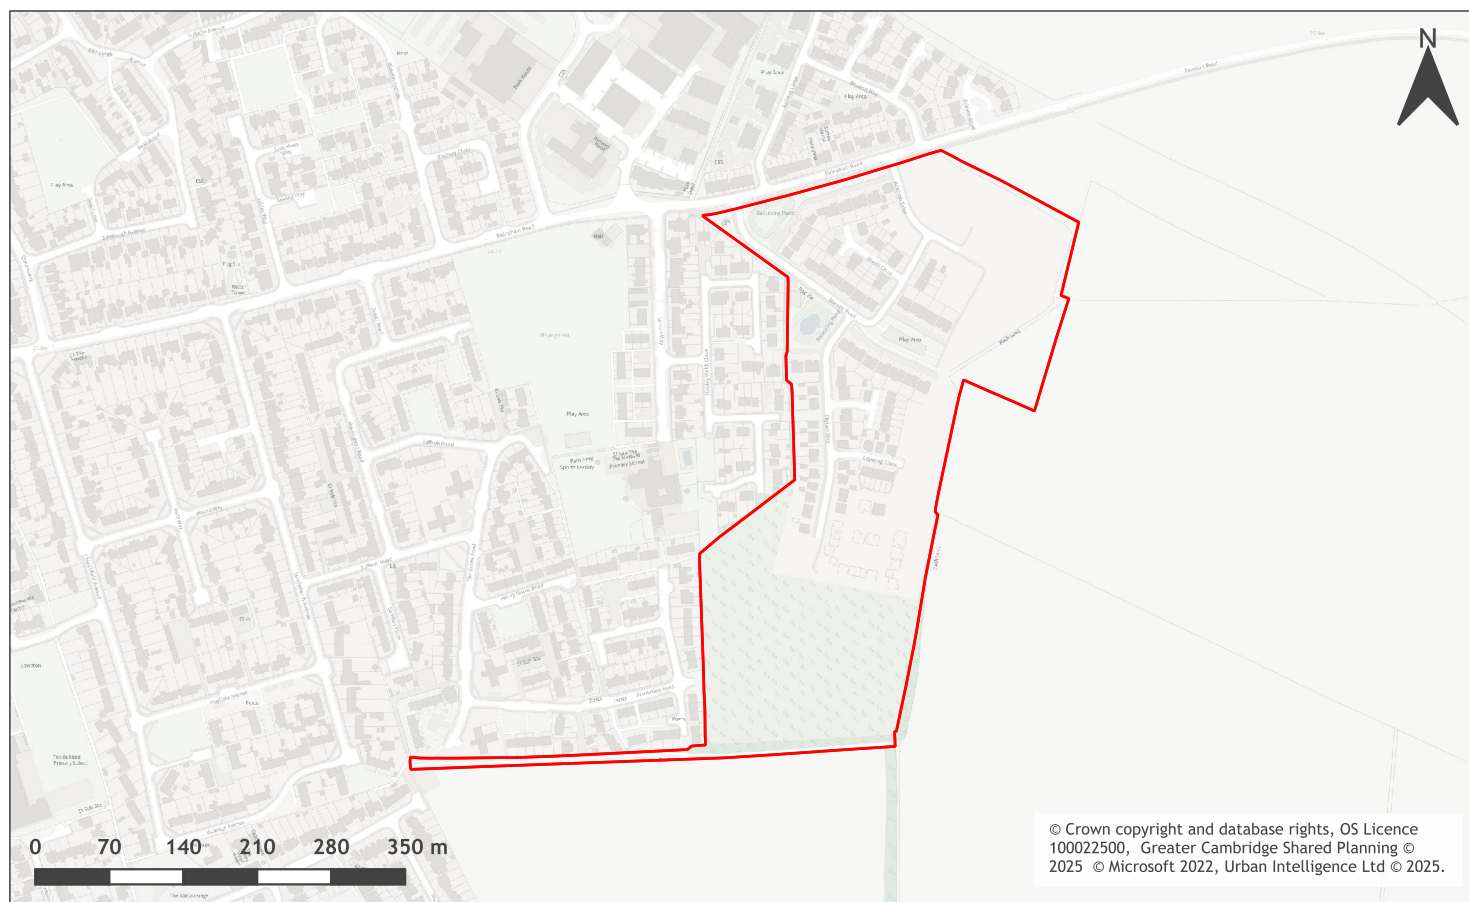

Biodiversity and Geodiversity RAG Assessment 2021	Amber
Biodiversity and Geodiversity Officer Comments 2021	All residential developments would require consideration of recreational impacts on nearby SSSIs including Sawston Meadows SSSI which is adjacent to the site (SW corner). All development would require consultation with Natural England. Any scheme would need to be very carefully designed to protect the adjacent SSSI and allocation for only part of site may be required. Recreational impacts may be challenging to avoid or mitigate. Site boundaries and adjacent habitats may qualify as Habitats of Principal Importance/be of high ecological value and support protected or notable species. Most of site is arable and likely to be of low current ecological value although some restoration may be possible if soil conditions allow. Bat records in close proximity. Farmland birds may be present.
Biodiversity and Geodiversity Guideline Comments 2021	Development of the site may have a detrimental impact on a designated site, or those with a regional or local protection but the impact could be reasonably mitigated or compensated.

Landscape RAG Assessment 2023	-
Landscape Comment 2023	-
Landscape RAG Assessment 2021	Amber
Landscape Comment 2021	The site is within the Development Framework Boundary abutting the Greenbelt. The site is contained in the south east but otherwise has a very open, rural character. Residential development is appropriate here given the adjacent site use. The proposed number of units for new development must respond well to the local context and character such as the existing form and scale of similar development within the village. The character of the landscape setting should be respected and key views to and from the village retained.
