

## Fenwillow Farm, Cow Fen Drove, Swavesey assessment

A map of Fenwillow Farm, Cow Fen Drove, Swavesey

Site information	-
Site ID	115156
HELAA Site ID	200804
Suitable Site Area (ha)	0.627707688988885
Ward/Parish	Swavesey
Greenfield or Previously Developed?	Greenfield, Previously developed land
Category of site	Dispersal: Villages / Transport Corridor
Category of settlement	Within or adjacent to minor rural centre
Current use(s)	Agricultural Land / Building, Commercial / Industrial
Proposed development	Residential
Proposed employment floorspace (m2)	0
Proposed residential capacity	10-15
Suitability	-
Adopted Development Plan Policies RAG 2025	Amber

Adopted Development Plan Policies Comment 2025	Development of the site has some potential policy constraints, but these could be overcome through the planning application process.
Flood Risk RAG Assessment 2025	Red
Flood Risk Officer Comment 2025	Flood zone: Wholly in Flood Zone 3; Surface water flooding: 2% lies in a 1 in 100 year event and 13% lies in a 1 in 1000 year event
Flood Risk RAG Assessment 2023	-
Flood Risk Officer Comment 2023	-
Flood Risk RAG Assessment 2021	-
Flood Risk Officer Comment 2021	-
Landscape RAG Assessment 2025	Amber
Landscape Comment 2025	The site is outside but adjacent to the development framework. Proposed density of 10-15 units will need to be tested against the prevailing context, but is considered high at this stage. The site is well contained by surrounding landscape features, but will require some additional landscape buffering and internal planting to mitigate the impact on views and to ensure that site blends in with the surrounding village edge.
Landscape RAG Assessment 2023	-
Landscape Comment 2023	-
Landscape RAG Assessment 2021	-
Landscape Comment 2021	-
Biodiversity and Geodiversity RAG Assessment 2025	Amber
Biodiversity and Geodiversity Officer Comments 2025	The site is within a known great crested newt population and sits within the Red Zone of Natural England's District Level Licensing Scheme. This means that the district level licensing will not be available to any development at this site and any ecological impacts will need to be appropriately mitigated.
Biodiversity and Geodiversity Guideline Comments 2025	Development of the site may have a detrimental impact on a designated site, or those with a regional or local protection, but the impact could be reasonably mitigated or compensated.
Biodiversity and Geodiversity RAG Assessment 2023	-
Biodiversity and Geodiversity Officer Comments 2023	-
Biodiversity and Geodiversity Guideline Comments 2023	-

Biodiversity and Geodiversity RAG Assessment 2021	-
Biodiversity and Geodiversity Officer Comments 2021	-
Biodiversity and Geodiversity Guideline Comments 2021	-
Policy RAG Rating 2025	Green
Policy Officer Comment 2025	Site is not on protected open space designation. Any impact of the proposed development could be reasonably mitigated or compensated.
Policy RAG Rating 2023	-
Policy Officer Comment 2023	-
Policy RAG Rating 2021	-
Policy Officer Comments 2021	-
Historic Environment RAG Assessment 2025	Amber
Historic Environment Comments 2025	Site is within 100m of a grade II listed building and the Swavesey Conservation Area. The East end of Market Street is noted in the Conservation Area Character appraisal as an informal space with seemingly randomly placed buildings, trees and shrubs and lanes running out into the surrounding countryside. This character would need to be respected by any future development of the site. Development of the site could have a detrimental impact the setting of designated or non-designated heritage assets, but the impact could be reasonably mitigated.
Historic Environment RAG Assessment 2023	-
Historic Environment Comments 2023	-
Historic Environment RAG Assessment 2021	-
Historic Environment Comments 2021	-
Archaeology RAG Assessment 2025	Amber
Archaeology Officer Comment 2025	The site is located on the edge of the medieval settlement, adjacent to the medieval town ditch. Archaeological investigations would be necessary in advance of development.
Archaeology RAG Assessment 2023	-
Archaeology Officer Comment 2023	-
Archaeology RAG Assessment 2021	-
Archaeology Officer Comment 2021	-

Accessibility RAG Assessment 2025 - Automated	Green
Accessibility RAG Assessment 2025 - Officer Verified	-
Accessibility Comment 2025	good accessibility to key local services, transport, and employment opportunities. Proposed development would not require delivery of accompanying key services
Site Access RAG Assessment 2025	Red
Site Access Officer Comment 2025	The site has been scored as Red. The site does not have a legal right of motor vehicle access as Cow Fen Drove is a bridleway. The site does not link to the adopted public highway and is therefore inaccessible to highway users. Consultation should be undertaken with Cambridgeshire County Council's Definitive Map team to better understand the acceptability of the proposed access.
Site Access RAG Assessment 2023	-
Site Access Officer Comment 2023	-
Site Access RAG Assessment 2021	-
Site Access Officer Comment 2021	-
Transport and Roads RAG Assessment 2025	Green
Transport and Roads Guideline Comments 2025	This falls below the threshold for a Transport Assessment.
Transport and Roads RAG Assessment 2023	-
Transport and Roads Guideline Comments 2023	-
Transport and Roads RAG Assessment 2021	-
Transport and Roads Guideline Comments 2021	-
Noise, Vibration, Odour and Light Pollution RAG Assessment 2025	Amber
Noise, Vibration, Odour and Light Pollution Guideline Comments 2025	The site is capable of being developed to provide healthy internal and external environments in regard to noise / vibration/ odour/ Light Pollution after careful site layout, design and mitigation
Noise, Vibration, Odour and Light Pollution RAG Assessment 2023	-
Noise, Vibration, Odour and Light Pollution Guideline Comments 2023	-
Noise, Vibration, Odour and Light Pollution RAG Assessment 2021	-

Noise, Vibration, Odour and Light Pollution Guideline Comments 2021	-
AQMA RAG Assessment 2025	Green
Air Quality Officer Comment 2025	The site has been scored as Green. The site does not lie within an Air Quality Management Area (AQMA) and therefore will have minimal traffic impact on designated AQMAs.
AQMA RAG Assessment 2023	-
Air Quality Officer Comment 2023	-
AQMA RAG Assessment 2021	-
Air Quality Officer Comment 2021	-
Contaminated Land RAG Assessment 2025	Amber
Contaminated Land Officer Comments 2025	Potential for historic contamination. The site is likely to be capable of being developed after appropriate mitigation or remediation of contamination / ground stability issues.
Contaminated Land RAG Assessment 2023	-
Contaminated Land Officer Comments 2023	-
Contaminated Land RAG Assessment 2021	-
Contaminated Land Officer Comments 2021	-
Overall Suitability Score	Red
Further constraints	-
Agricultural Land Classification Grade 1	0
Agricultural Land Classification Grade 2	0
Agricultural Land Classification Grade 3	0
Agricultural Land Classification Grade 4	100
Agricultural Land Classification Non Agricultural	0
Agricultural Land Classification Urban	0
Source Protection Zone	0
Highways England Zones	A14 West
Available	-
Is the site controlled by a developer or landowner who has expressed an intention to develop?	The site was submitted by the landowner and/or site promoter who has confirmed that the site is available for development in the timescales indicated.

Are there known legal or ownership impediments to development?	No
Is there planning permission to develop the site?	No relevant recent planning history
When will the site be available for development?	0 to 5 years
Available RAG	Amber
Achievable	-
Is there a reasonable prospect that the site will be developed?	The land has been promoted by the landowner and or developer and is known to be available for development. The site has a low existing use value and development is likely to be economically viable
Achievable RAG	Green
Capacity	-
Prevailing Density (weighted) (dwellings per ha)	30
Residential capacity at prevailing density	18
Estimated employment space (m2)	0
Estimated start date	0-5 Years
Estimated annual build-out rate (pa)	40-75
Development completion timescales (years)	0-5 Years

## Land south of Vermuyden Way, Fen Drayton assessment

A map of Land south of Vermuyden Way, Fen Drayton

Site information	-
Site ID	115247
HELAA Site ID	200788
Suitable Site Area (ha)	1.04335691283491
Ward/Parish	Swavesey
Greenfield or Previously Developed?	Greenfield
Category of site	Dispersal: Villages
Category of settlement	Within or adjacent to group village
Current use(s)	Paddock / Scrub
Proposed development	Residential
Proposed employment floorspace (m2)	0
Proposed residential capacity	30-40
Suitability	-
Adopted Development Plan Policies RAG 2025	Amber

Adopted Development Plan Policies Comment 2025	Development of the site has some potential policy constraints, but these could be overcome through the planning application process.
Flood Risk RAG Assessment 2025	Amber
Flood Risk Officer Comment 2025	Flood zone: Wholly in Flood Zone 1; Surface water flooding: 1% lies in a 1 in 30 year event and 2% lies in a 1 in 1000 year event
Flood Risk RAG Assessment 2023	-
Flood Risk Officer Comment 2023	-
Flood Risk RAG Assessment 2021	-
Flood Risk Officer Comment 2021	-
Landscape RAG Assessment 2025	Amber
Landscape Comment 2025	The site is reliant on the delivery of the neighbouring site to achieve continuity and connectivity. The site is outside the development framework but is well contained within both landscape buffering and other development edges/enclosures. Development with some mitigations would not give rise to harm to Landscape character or other landscape constraints. It is recommended that the neighbouring site is acquired and delivered at the same time. Landscape buffering will be required to further embed the site within the village environs.
Landscape RAG Assessment 2023	-
Landscape Comment 2023	-
Landscape RAG Assessment 2021	-
Landscape Comment 2021	-
Biodiversity and Geodiversity RAG Assessment 2025	Amber
Biodiversity and Geodiversity Officer Comments 2025	A development of the size and scale described in this location would likely raise concerns regarding impacts to statutory protected sites or those with a regional or local protection. This includes increases in recreational pressure on nearby designated sites.
Biodiversity and Geodiversity Guideline Comments 2025	Development of the site may have a detrimental impact on a designated site, or those with a regional or local protection, but the impact could be reasonably mitigated or compensated.
Biodiversity and Geodiversity RAG Assessment 2023	-
Biodiversity and Geodiversity Officer Comments 2023	-
Biodiversity and Geodiversity Guideline Comments 2023	-

Biodiversity and Geodiversity RAG Assessment 2021	-
Biodiversity and Geodiversity Officer Comments 2021	-
Biodiversity and Geodiversity Guideline Comments 2021	-
Policy RAG Rating 2025	Green
Policy Officer Comment 2025	Site is not on protected open space designation. Any impact of the proposed development could be reasonably mitigated or compensated. the site is wholly outside an open space designation
Policy RAG Rating 2023	-
Policy Officer Comment 2023	-
Policy RAG Rating 2021	-
Policy Officer Comments 2021	-
Historic Environment RAG Assessment 2025	Green
Historic Environment Comments 2025	Development of the site would have either a neutral or positive impact, but importantly not have a detrimental impact on any designated or non-designated heritage assets.
Historic Environment RAG Assessment 2023	-
Historic Environment Comments 2023	-
Historic Environment RAG Assessment 2021	-
Historic Environment Comments 2021	-
Archaeology RAG Assessment 2025	Red
Archaeology Officer Comment 2025	The site is located in an area of known Roman to medieval activity. Human skeletal remains of Roman date are also known in the area. Further information would be necessary to determine the suitability of this site for development.
Archaeology RAG Assessment 2023	-
Archaeology Officer Comment 2023	-
Archaeology RAG Assessment 2021	-
Archaeology Officer Comment 2021	-
Accessibility RAG Assessment 2025 - Automated	Amber

Accessibility RAG Assessment 2025 - Officer Verified	-
Accessibility Comment 2025	Adequate accessibility to key local services, transport, and employment opportunities. Proposed development would not require delivery of accompanying key services
Site Access RAG Assessment 2025	Red
Site Access Officer Comment 2025	The site has been scored as Red. The site does not link to the adopted public highway and is therefore inaccessible to highway users.
Site Access RAG Assessment 2023	-
Site Access Officer Comment 2023	-
Site Access RAG Assessment 2021	-
Site Access Officer Comment 2021	-
Transport and Roads RAG Assessment 2025	Amber
Transport and Roads Guideline Comments 2025	Any potential impact on the functioning of trunk roads and/or local roads could be reasonably mitigated. The development would need to provide mitigation to reduce the vehicle impact and encourage active travel and public transport use. A Transport Assessment and a Travel Plan will be required.
Transport and Roads RAG Assessment 2023	-
Transport and Roads Guideline Comments 2023	-
Transport and Roads RAG Assessment 2021	-
Transport and Roads Guideline Comments 2021	-
Noise, Vibration, Odour and Light Pollution RAG Assessment 2025	Amber
Noise, Vibration, Odour and Light Pollution Guideline Comments 2025	The site is capable of being developed to provide healthy internal and external environments in regard to noise / vibration/ odour/ light pollution after careful site layout, design and mitigation.
Noise, Vibration, Odour and Light Pollution RAG Assessment 2023	-
Noise, Vibration, Odour and Light Pollution Guideline Comments 2023	-
Noise, Vibration, Odour and Light Pollution RAG Assessment 2021	-

This map shows the Lolworth area in Cambridgeshire. A large red-outlined site is the central focus. The map includes the following details:

- Roads:** A14, A1307, A1302, Huntingdon Road, Barton Road, and Barton Way.
- Locations and Landmarks:** Hill Farm, Noon Folly Farm, Hazelwell House, Lolworth Spring, Newhouse Grange Farm, Roger's Wood, All Saints' Church, and Lolworth.
- Infrastructure:** Huntingdon Road, Barton Road, Barton Way, and Barton Way.
- Scale and Orientation:** A scale bar from 0 to 500 meters and a north arrow pointing towards the top right.
- Copyright:** © Crown copyright and database rights, OS Licence 100022500, Greater Cambridge Shared Planning © 2025 © Microsoft 2022, Urban Intelligence Ltd © 2025.

Site information	-
Site ID	115255
HELAA Site ID	40121
Suitable Site Area (ha)	121.050524500689
Ward/Parish	Swavesey
Greenfield or Previously Developed?	Greenfield
Category of site	Dispersal: Villages / Transport Corridor
Category of settlement	Not within or adjacent to an existing settlement
Current use(s)	Agricultural Land / Building
Proposed development	Non-Residential
Proposed employment floorspace (m2)	100000-250000
Proposed residential capacity	0
Suitability	-
Adopted Development Plan Policies RAG 2025	Amber

Adopted Development Plan Policies Comment 2025	Development of the site has some potential policy constraints, but these could be overcome through the planning application process.
Flood Risk RAG Assessment 2025	Red
Flood Risk Officer Comment 2025	Flood zone: Partly in Flood Zone 2 (2%) Partly in Flood Zone 3 (2%); Surface water flooding: 6% lies in a 1 in 30 year event, 3% lies in a 1 in 100 year event and 10% lies in a 1 in 1000 year event
Flood Risk RAG Assessment 2023	-
Flood Risk Officer Comment 2023	-
Flood Risk RAG Assessment 2021	Red
Flood Risk Officer Comment 2021	The site is wholly or largely within Flood Zones 2 or 3 such that it cannot accommodate at least 5 additional dwellings or an increase of 500 square metres of employment floorspace and/or the site is a 'dry island' whereby all potential accesses to the adopted public highway require crossing land that is within Flood Zones 2 or 3.
Landscape RAG Assessment 2025	Red
Landscape Comment 2025	The site is in a very open, exposed area of agricultural landscape next to the A14 and so the proposed development for large-scale logistics buildings will have significant negative impacts on the landscape. The supporting Vision Document and Landscape Technical Note demonstrate that impacts on landscape have been considered but much more significant mitigation would be required to integrate such a large scale development on this site.
Landscape RAG Assessment 2023	-
Landscape Comment 2023	-
Landscape RAG Assessment 2021	Amber
Landscape Comment 2021	The site is proposed for Employment Use which covers many types of uses. The proposals also suggests 55% of the site could be developed. Landscape impacts will typically based on visibility if buildings are taller or more densely placed. Car or lorry parking area will also need to be considered. Given the openness of the views, particularly from the B1050 and the raised carriageway over the A14, landscape buffering will be required.
Biodiversity and Geodiversity RAG Assessment 2025	Amber
Biodiversity and Geodiversity Officer Comments 2025	Having considered the additional information provided, development of the size and scale described could have an impact on protected species or habitats with ecological value, but there is evidence that this could be mitigated. Development would also need to be managed to ensure it does not present any ecological risks to statutory or non-statutory designated sites.
Biodiversity and Geodiversity Guideline Comments 2025	Development of the site may have a detrimental impact on a designated site, or those with a regional or local protection, but the impact could be reasonably mitigated or compensated.

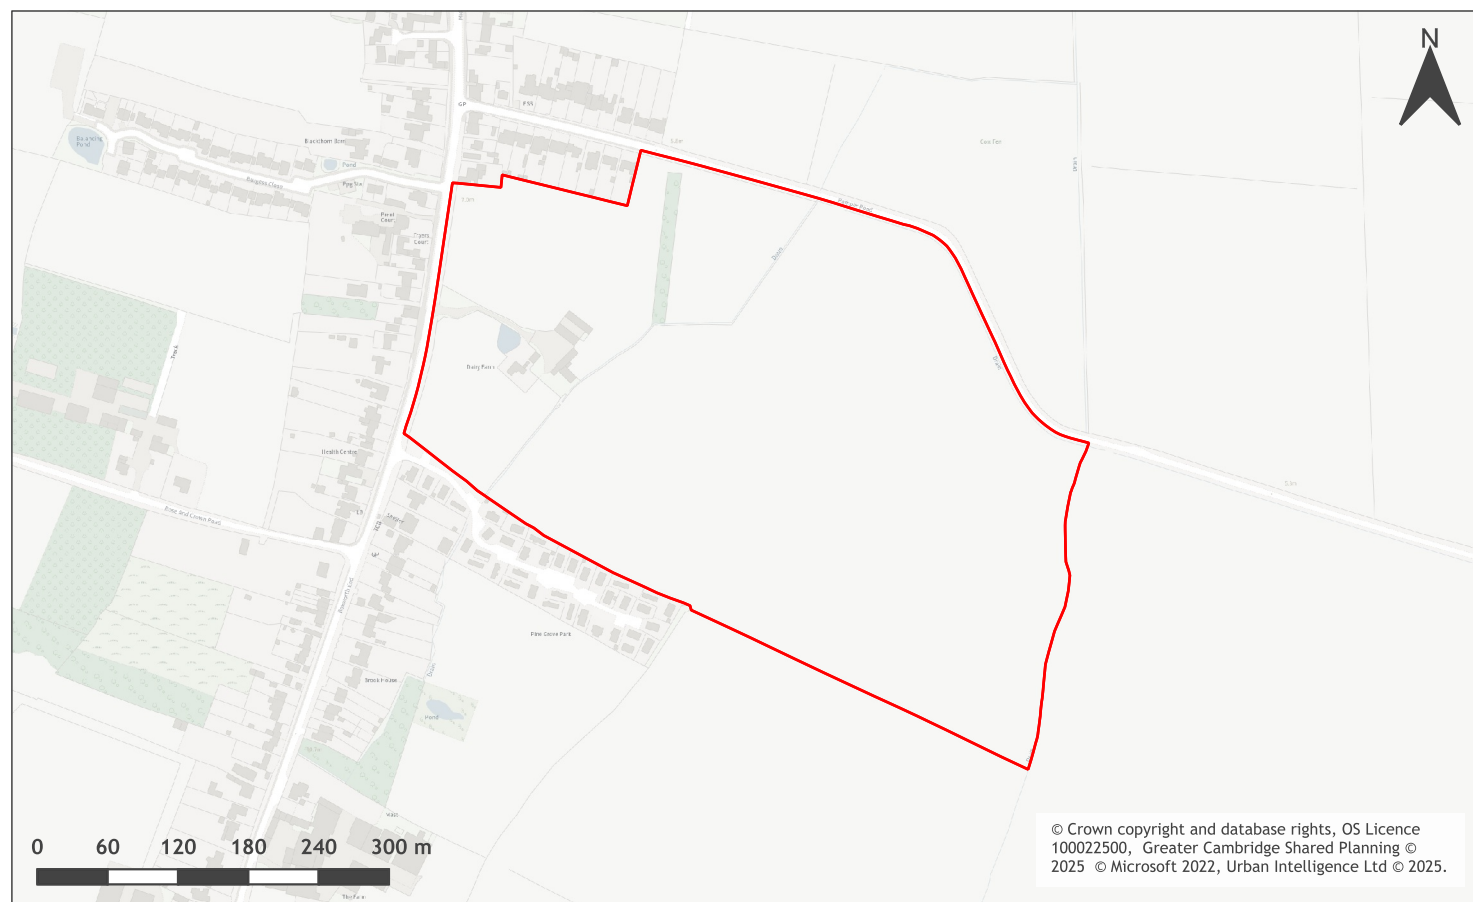

Biodiversity and Geodiversity RAG Assessment 2023	-
Biodiversity and Geodiversity Officer Comments 2023	-
Biodiversity and Geodiversity Guideline Comments 2023	-
Biodiversity and Geodiversity RAG Assessment 2021	Amber
Biodiversity and Geodiversity Officer Comments 2021	Any agricultural/industrial development that could cause air pollution will require consultation with Natural England. There are no apparent priority habitats within the site; however, there are grasslands, hedges and wooded boundaries on site that are likely to have ecological value.
Biodiversity and Geodiversity Guideline Comments 2021	Development of the site may have a detrimental impact on a designated site, or those with a regional or local protection but the impact could be reasonably mitigated or compensated.
Policy RAG Rating 2025	Green
Policy Officer Comment 2025	Site is not on protected open space designation. Any impact of the proposed development could be reasonably mitigated or compensated. the site is wholly outside an open space designation
Policy RAG Rating 2023	-
Policy Officer Comment 2023	-
Policy RAG Rating 2021	Green
Policy Officer Comments 2021	Site is not on protected open space designation. Any impact of the proposed development could be reasonably mitigated or compensated.
Historic Environment RAG Assessment 2025	Green
Historic Environment Comments 2025	Assessment of the site remains unchanged as Green. Development of the site would have either a neutral or positive impact, but importantly not have a detrimental impact on any designated or non-designated heritage assets.
Historic Environment RAG Assessment 2023	-
Historic Environment Comments 2023	-
Historic Environment RAG Assessment 2021	Green
Historic Environment Comments 2021	No heritage issues with this proposal. Development of the site would have either a neutral or positive impact, but importantly not have a detrimental impact on any designated or non-designated heritage assets.
Archaeology RAG Assessment 2025	Red
Archaeology Officer Comment 2025	Extensive evidence of Iron Age and Roman activity is recorded within, and in the vicinity of the proposed area. Assessment has therefore been amended to red.
Archaeology RAG Assessment 2023	-

Archaeology Officer Comment 2023	-
Archaeology RAG Assessment 2021	Amber
Archaeology Officer Comment 2021	Located in a landscape with extensive late prehistoric and Roman archaeology
Accessibility RAG Assessment 2025 - Automated	Amber
Accessibility RAG Assessment 2025 - Officer Verified	-
Accessibility Comment 2025	Adequate accessibility to key local services, transport, and employment opportunities. Proposed development would not require delivery of accompanying key services
Site Access RAG Assessment 2025	Amber
Site Access Officer Comment 2025	Based on the revised information and documentation, the assessment score has been changed to Amber. The site is acceptable, subject to greater detail and consultation. A significant level of infrastructure will be required outside the site boundary to encourage more sustainable transport links. It is unclear whether these sustainable transport links can be achieved within the local available constraints.
Site Access RAG Assessment 2023	Red
Site Access Officer Comment 2023	Based on the new information provided, the site access remains unacceptable and therefore there is no change to the original assessment. Any new access off the strategic road network will require approval from National Highways and therefore unlikely to be deliverable.
Site Access RAG Assessment 2021	Red
Site Access Officer Comment 2021	The Local Planning Authority will need to consult with the Highway Agency, as National Highway Authority, in respect to the proposed site.
Transport and Roads RAG Assessment 2025	Amber
Transport and Roads Guideline Comments 2025	Based on the updated information, the overall assessment score has not changed. Any potential impact on the functioning of trunk roads and/or local roads could be reasonably mitigated. The development would need to provide mitigation to reduce the vehicle impact and encourage active travel and public transport use. A Transport Assessment and a Travel Plan will be required. A vehicle trip budget for the development of this site is also expected to be required.
Transport and Roads RAG Assessment 2023	-
Transport and Roads Guideline Comments 2023	-
Transport and Roads RAG Assessment 2021	Amber
Transport and Roads Guideline Comments 2021	Any potential impact on the functioning of trunk roads and/or local roads could be reasonably mitigated.

Noise, Vibration, Odour and Light Pollution RAG Assessment 2025	Amber
Noise, Vibration, Odour and Light Pollution Guideline Comments 2025	Based on the proposed use (non residential), the site is capable of being developed to provide healthy internal and external environments in regard to noise / vibration/ odour/ Light Pollution after careful site layout, design and mitigation.
Noise, Vibration, Odour and Light Pollution RAG Assessment 2023	-
Noise, Vibration, Odour and Light Pollution Guideline Comments 2023	-
Noise, Vibration, Odour and Light Pollution RAG Assessment 2021	Amber
Noise, Vibration, Odour and Light Pollution Guideline Comments 2021	The proposed site will be affected by road traffic noise from nearby main roads but is acceptable in principle subject to appropriate detailed design considerations and mitigation.
AQMA RAG Assessment 2025	Green
Air Quality Officer Comment 2025	The assessment score remains as Green based on the additional information. The site does not lie within an Air Quality Management Area (AQMA) and therefore will have minimal traffic impact on designated AQMAs.
AQMA RAG Assessment 2023	-
Air Quality Officer Comment 2023	-
AQMA RAG Assessment 2021	Green
Air Quality Officer Comment 2021	Site does not lie within an AQMA. Minimal traffic impact on AQMA.
Contaminated Land RAG Assessment 2025	Green
Contaminated Land Officer Comments 2025	The overall assessment has not changed and remains Green. Non-residential use proposed.
Contaminated Land RAG Assessment 2023	-
Contaminated Land Officer Comments 2023	-
Contaminated Land RAG Assessment 2021	Green
Contaminated Land Officer Comments 2021	Non-residential use proposed.
Overall Suitability Score	Red
Further constraints	-
Agricultural Land Classification Grade 1	0
Agricultural Land Classification Grade 2	46.69

Agricultural Land Classification Grade 3	53.31
Agricultural Land Classification Grade 4	0
Agricultural Land Classification Non Agricultural	0
Agricultural Land Classification Urban	0
Source Protection Zone	0
Highways England Zones	A14 West
Available	-

Suitable Site Area (ha)	18.8111289426958
Ward/Parish	Swavesey
Greenfield or Previously Developed?	Greenfield
Category of site	Dispersal: Villages / Transport Corridor
Category of settlement	Within or adjacent to Minor Rural Centre
Current use(s)	-
Proposed development	Residential
Proposed employment floorspace (m2)	0
Proposed residential capacity	150
Suitability	-
Adopted Development Plan Policies RAG 2025	Amber

Adopted Development Plan Policies Comment 2025	Development of the site has some potential policy constraints, but these could be overcome through the planning application process.
Flood Risk RAG Assessment 2025	Amber
Flood Risk Officer Comment 2025	Flood Zone: Partly in Flood Zone 3 (30%). Surface Water Flooding: 21% lies in a 1 in 30 year event. 6% lies in a 1 in 100 year event. 9% lies in a 1 in 1000 year event
Flood Risk RAG Assessment 2023	-
Flood Risk Officer Comment 2023	-
Flood Risk RAG Assessment 2021	Amber
Flood Risk Officer Comment 2021	The site contains areas at high, or medium risk from surface water flooding and/or the site contains some land in Flood Zones 2 and/or 3 but there is sufficient land in Flood Zone 1 to accommodate at least 5 additional dwellings or an increase of 500 square metres of employment floorspace.
Landscape RAG Assessment 2025	-
Landscape Comment 2025	-
Landscape RAG Assessment 2023	-
Landscape Comment 2023	-
Landscape RAG Assessment 2021	Red
Landscape Comment 2021	The proposed site covers a large area of land which would extend the village envelope some way into the countryside. It is surrounded by open and exposed arable farmland with wide open views. The visual and landscape character impact would be significant because of the infilling/urbanisation of the Important Countryside Frontage and the exposure to views of the site from the east. A significantly reduced development to the west of the site could be acceptable with landscape mitigation.
Biodiversity and Geodiversity RAG Assessment 2025	-
Biodiversity and Geodiversity Officer Comments 2025	-
Biodiversity and Geodiversity Guideline Comments 2025	-
Biodiversity and Geodiversity RAG Assessment 2023	-
Biodiversity and Geodiversity Officer Comments 2023	-

Biodiversity and Geodiversity Guideline Comments 2023	-
Biodiversity and Geodiversity RAG Assessment 2021	Amber
Biodiversity and Geodiversity Officer Comments 2021	All new housing developments will require assessment of increased visitor pressure on nearby SSSI. There are a number of drains and watercourses on site that will require survey and probable mitigation. There are no other apparent priority habitats within the site; however, there are buildings, grasslands, woodland areas, hedges, and wooded boundaries on site that are likely to have ecological value.
Biodiversity and Geodiversity Guideline Comments 2021	Development of the site may have a detrimental impact on a designated site, or those with a regional or local protection but the impact could be reasonably mitigated or compensated.
Policy RAG Rating 2025	-
Policy Officer Comment 2025	-
Policy RAG Rating 2023	-
Policy Officer Comment 2023	-
Policy RAG Rating 2021	Green
Policy Officer Comments 2021	Site is not on protected open space designation. Any impact of the proposed development could be reasonably mitigated or compensated.
Historic Environment RAG Assessment 2025	-
Historic Environment Comments 2025	-
Historic Environment RAG Assessment 2023	-
Historic Environment Comments 2023	-
Historic Environment RAG Assessment 2021	Amber
Historic Environment Comments 2021	The listed building opposite is set well back from the street. Hedges define street on both sides, so it is not seen in open setting. Provided appropriate layout and landscaping are in place, development on East side of Boxworth End is not likely to have significant harmful impact on setting.
Archaeology RAG Assessment 2025	-
Archaeology Officer Comment 2025	-
Archaeology RAG Assessment 2023	-
Archaeology Officer Comment 2023	-
Archaeology RAG Assessment 2021	Amber
Archaeology Officer Comment 2021	Located in a landscape with potential for prehistoric and Roman archaeology

Accessibility RAG Assessment 2025 - Automated	Green
Accessibility RAG Assessment 2025 - Officer Verified	-
Accessibility Comment 2025	Good accessibility to key local services, transport, and employment opportunities. Proposed development would not require delivery of accompanying key services

Available	-
Is the site controlled by a developer or landowner who has expressed an intention to develop?	The site was submitted by the landowner and/or site promoter who has confirmed that the site is available for development in the timescales indicated.
Are there known legal or ownership impediments to development?	No

Is there planning permission to develop the site?	No relevant recent planning history
When will the site be available for development?	0-5 Years
Available RAG	Green
Achievable	-
Is there a reasonable prospect that the site will be developed?	The land has been promoted by the landowner and or developer and is known to be available for development. The site has a low existing use value and residential development is likely to be economically viable at an appropriate density.
Achievable RAG	Green
Capacity	-
Prevailing Density (weighted) (dwellings per ha)	30
Residential capacity at prevailing density	282
Estimated employment space (m2)	0
Estimated start date	0-5 Years
Estimated annual build-out rate (pa)	40-75
Development completion timescales (years)	6-10 Years

## Land on the south east side of Fen Drayton Road, Swavesey assessment

A map of Land on the south east side of Fen Drayton Road, Swavesey

Site information	-
Site ID	115325
HELAA Site ID	56167
Suitable Site Area (ha)	1.66977572193857
Ward/Parish	Swavesey
Greenfield or Previously Developed?	Greenfield
Category of site	Dispersal: Villages
Category of settlement	Not within or adjacent to an existing settlement
Current use(s)	-
Proposed development	Residential
Proposed employment floorspace (m2)	0
Proposed residential capacity	50
Suitability	-
Adopted Development Plan Policies RAG 2025	Amber

Adopted Development Plan Policies Comment 2025	Development of the site has some potential policy constraints, but these could be overcome through the planning application process.
Flood Risk RAG Assessment 2025	Amber
Flood Risk Officer Comment 2025	Flood Zone: Wholly in Flood Zone 1. Surface Water Flooding: 4% lies in a 1 in 30 year event. 3% lies in a 1 in 100 year event. 4% lies in a 1 in 1000 year event
Flood Risk RAG Assessment 2023	-
Flood Risk Officer Comment 2023	-
Flood Risk RAG Assessment 2021	Amber
Flood Risk Officer Comment 2021	The site contains areas at high, or medium risk from surface water flooding and/or the site contains some land in Flood Zones 2 and/or 3 but there is sufficient land in Flood Zone 1 to accommodate at least 5 additional dwellings or an increase of 500 square metres of employment floorspace.
Landscape RAG Assessment 2025	-
Landscape Comment 2025	-
Landscape RAG Assessment 2023	-
Landscape Comment 2023	-
Landscape RAG Assessment 2021	Red
Landscape Comment 2021	The site is an open field to the west of Swavesey. Development upon this site would cause significant adverse harm to the local landscape character. It would be detached from the existing settlement framework and appear incongruous with the rural landscape. The development would be an encroachment into the landscape and be permanent. Even with a reduction in residential units the harm would still be adverse and unacceptable.
Biodiversity and Geodiversity RAG Assessment 2025	-
Biodiversity and Geodiversity Officer Comments 2025	-
Biodiversity and Geodiversity Guideline Comments 2025	-
Biodiversity and Geodiversity RAG Assessment 2023	-
Biodiversity and Geodiversity Officer Comments 2023	-

Biodiversity and Geodiversity Guideline Comments 2023	-
Biodiversity and Geodiversity RAG Assessment 2021	Amber
Biodiversity and Geodiversity Officer Comments 2021	All new residential developments would require an assessment of recreational impact on nearby SSSIs. Any discharge to ground or surface water of more than 20m <sup>3</sup> /day would require consultation with Natural England. Hedgerows are likely to be Habitats of Principal Importance and may support protected and notable species. Arable habitats likely to be of low ecological value although may support farmland birds. There are great crested newt records within 250m and known good populations is close proximity. Mitigation would need to tie into adjacent development. All schemes need to deliver at least 10% measurable biodiversity net gain.
Biodiversity and Geodiversity Guideline Comments 2021	Development of the site may have a detrimental impact on a designated site, or those with a regional or local protection but the impact could be reasonably mitigated or compensated.
Policy RAG Rating 2025	-
Policy Officer Comment 2025	-

Landscape Comment 2025	-
Landscape RAG Assessment 2023	-
Landscape Comment 2023	-
Landscape RAG Assessment 2021	Amber
Landscape Comment 2021	The site is outside of the Development Framework Boundary and therefore in the countryside. Preservation of the rural countryside character is important, but the site would essentially see development in the countryside. The site exhibits a mixed character with containment all around and an open character in the west. New development must reflect the existing form and scale of similar development nearby. Implementation of green infrastructure and an appropriate landscape strategy will be integral to the success of this site.

Landscape Comment 2025	-
Landscape RAG Assessment 2023	-
Landscape Comment 2023	-
Landscape RAG Assessment 2021	Red
Landscape Comment 2021	An isolated arable field on Rose and Crown Road. Views to and from the site are expansive and of flat arable farmland in all directions. The proposed site is isolated and surrounded by open arable farmland with extensive views. If developed, the visual and landscape character impact would be significant due to the open and exposed nature of the site and its isolation from any defined urban area. Landscape mitigation of any development in terms of buffer planting would have limited benefit of lessening impact.

Available	-
Is the site controlled by a developer or landowner who has expressed an intention to develop?	The site was submitted by the landowner and/or site promoter who has confirmed that the site is available for development in the timescales indicated.
Are there known legal or ownership impediments to development?	No
Is there planning permission to develop the site?	No relevant recent planning history
When will the site be available for development?	0-5 Years

Available RAG	Green
Achievable	-
Is there a reasonable prospect that the site will be developed?	The land has been promoted by the landowner and or developer and is known to be available for development. The site has a low existing use value and non-residential development is likely to be economically viable at an appropriate density.
Achievable RAG	Green
Capacity	-
Prevailing Density (weighted) (dwellings per ha)	30
Residential capacity at prevailing density	95
Estimated employment space (m2)	14000
Estimated start date	0-5 Years
Estimated annual build-out rate (pa)	-
Development completion timescales (years)	0-5 Years
