

Noise, Vibration, Odour and Light Pollution Guideline Comments 2021	The proposed site will be affected by industrial type noise from University Printing House and Recreational noise from Sports Ground Pavilion, and railway noise to the east. Housing immediately next to tennis club courts to north unlikely to be considered good acoustic design. Due to size of the site should be possible to mitigate noise.

Biodiversity and Geodiversity Officer Comments 2021	Any residential development above 100 units will require consultation with Natural England. Habitats mostly likely to be of relatively low ecological value (arable) although boundary hedgerows may be Habitats of Principal Importance/priority habitat and may be pockets of scrub/woodland/mosaic habitat in northern area. Potential for bat roosts in buildings in north of site (if suitable) and farmland bird populations.
Biodiversity and Geodiversity Guideline Comments 2021	Development of the site may have a detrimental impact on a designated site, or those with a regional or local protection but the impact could be reasonably mitigated or compensated.
