| Suitability | - |
| Adopted Development Plan Policies RAG 2025 | Amber |

| Adopted Development | Development of the site has some potential policy constraints, but these |
|-------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Plan Policies Comment 2025 | could be overcome through the planning application process. |
| Flood Risk RAG Assessment 2025 | Amber |
| Flood Risk Officer Comment 2025 | Flood Zone: Wholly in Flood Zone 1. Surface Water Flooding: 5% lies in a 1 in 100 year event. 7% lies in a 1 in 1000 year event |
| Flood Risk RAG | - |
| Assessment 2023 | |
| Flood Risk Officer Comment 2023 | - |
| Flood Risk RAG Assessment 2021 | Green |
| Flood Risk Officer Comment 2021 | The site is at low risk of flooding (within flood zone 1) and no risk from surface water flooding |
| Landscape RAG Assessment 2025 | |
| Landscape Comment 2025 | |
| Landscape RAG Assessment 2023 | - |
| Landscape Comment 2023 | - |
| Landscape RAG Assessment 2021 | Green |
| Landscape Comment 2021 | The site has a partially enclosed and partially open character making it clearly visible from some areas. Residential development is appropriate here when considering the adjacent residential properties in the west but this site also surrounds heavy commercial use and the site must be therefore be protected from the existing effects. All site boundaries would need to be strengthened for mitigation purposes, namely the eastern and southern boundaries. |

| Flood Risk Officer Comment 2021 | - |
| Landscape RAG Assessment 2025 | - |
| Landscape Comment 2025 | - |
| Landscape RAG Assessment 2023 | Amber |
| Landscape Comment 2023 | The site is a large field with linear developments along Duxford Road and Station Road to the west and south. The railway line is on the eastern boundary and the site falls entirely outside the development framework. Development on the site would infill a large area of rural countryside but may not be perceived as impacting the separation between Whittlesford and Whittlesford Bridge. Visibility towards the site is possible over the low hedges to the north. Development would cause a low level of harm to the rural nature of the site but could potentially be mitigated by strong buffers, housing density in keeping with the surrounding context and interplanting with trees to create a layered effect of rooftops and trees to any longer distance views. |
| Landscape RAG Assessment 2021 | - |
| Landscape Comment 2021 | - |
| Biodiversity and Geodiversity RAG Assessment 2025 | - |
| Biodiversity and Geodiversity Officer Comments 2025 | - |
| Biodiversity and Geodiversity Guideline Comments 2025 | - |
| Biodiversity and Geodiversity RAG Assessment 2023 | Green |
| Biodiversity and Geodiversity Officer Comments 2023 | No likely impact on sites designated for nature conservation. The site appears to be arable land with limited ecological value, albeit the boundary hedgerows may be classified as Priority habitat. The site may also have value for Priority farmland bird assemblages. |

| Biodiversity and Geodiversity Guideline Comments 2023 | Development of the site would not have a detrimental impact on any designated site, or those with a regional or local protection. |
|-------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

A map of Wedd Joinery, 84 Duxford Road, Whittlesford

| C:t - :- (t: | |
|-----------------------------------------------|--------------------------------------------------|
| Site information | • |
| Site ID | 115876 |
| HELAA Site ID | 40561 |
| Suitable Site Area (ha) | 0.347504331101094 |
| Ward/Parish | Whittlesford |
| Greenfield or Previously Developed? | Previously Developed Land |
| Category of site | Integrating homes and jobs - Southern cluster |
| Category of settlement | Not within or adjacent to an existing settlement |
| Current use(s) | - |
| Proposed development | Residential |
| Proposed employment floorspace (m2) | 0 |
| Proposed residential capacity | 7 |
| Suitability | - |
| Adopted Development Plan Policies RAG 2025 | Amber |

| Adopted Development Plan Policies Comment 2025 | Development of the site has some potential policy constraints, but these could be overcome through the planning application process. |
|-------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Flood Risk RAG Assessment 2025 | Amber |
| Flood Risk Officer Comment 2025 | Flood Zone: Wholly in Flood Zone 1. Surface Water Flooding: 3% lies in a 1 in 30 year event. 2% lies in a 1 in 100 year event. 2% lies in a 1 in 1000 year event |
| Flood Risk RAG Assessment 2023 | - |
| Flood Risk Officer Comment 2023 | - |
| Flood Risk RAG Assessment 2021 | Green |
| Flood Risk Officer Comment 2021 | The site is at low risk of flooding (within flood zone 1) and no risk from surface water flooding |
| Landscape RAG Assessment 2025 | - |
| Landscape Comment 2025 | - |
| Landscape RAG Assessment 2023 | - |
| Landscape Comment 2023 | - |
| Landscape RAG Assessment 2021 | Green |
| Landscape Comment 2021 | The site lies outside of the Development Framework Boundary and therefore in the countryside, however, this is a brownfield site and the replacement of the factory building with residential units would not comprise an encroachment into the countryside and would be less visually intrusive when viewed from the surrounding area. Development in this location should reflect the density and pattern of the existing village. Recommend an appropriate landscape strategy. |
| Biodiversity and Geodiversity RAG Assessment 2025 | - |
| Biodiversity and Geodiversity Officer Comments 2025 | - |
| Biodiversity and Geodiversity Guideline Comments 2025 | - |
| Biodiversity and Geodiversity RAG Assessment 2023 | - |
| Biodiversity and Geodiversity Officer Comments 2023 | - |
| Biodiversity and Geodiversity Guideline Comments 2023 | - |
| Biodiversity and Geodiversity RAG Assessment 2021 | Green |

| Biodiversity and Geodiversity Officer Comments 2021 | Application unlikely to require Natural England consultation. There are no apparent priority habitats within the site; however, there are buildings, grasslands, hedges, and wooded boundaries on site that are likely to have ecological value. Applications may find provision of a 10% net gain in biodiversity difficult within their red line boundaries and may need to find off-site compensation to comply with up-coming National legislation and developing local policies. |
|-------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Biodiversity and Geodiversity Guideline Comments 2021 | Development of the site would not have a detrimental impact on any designated site, or those with a regional or local protection. |

|-----------------------------------------------|-----------------------------------------------|
| Site ID | 115878 |
| HELAA Site ID | 51602 |
| Suitable Site Area (ha) | 109.358713467182 |
| Ward/Parish | Whittlesford |
| Greenfield or Previously Developed? | Greenfield |
| Category of site | Integrating homes and jobs - Southern cluster |
| Category of settlement | Within or adjacent to Group Village |
| Current use(s) | - |
| Proposed development | Mixed Use |
| Proposed employment floorspace (m2) | 1000 |
| Proposed residential capacity | 1200 |
| Suitability | - |
| Adopted Development Plan Policies RAG 2025 | Amber |

| Adopted Development Plan Policies Comment 2025 | Development of the site has some potential policy constraints, but these could be overcome through the planning application process. |
|-------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Flood Risk RAG Assessment 2025 | Amber |
| Flood Risk Officer Comment 2025 | Flood Zone: Partly in Flood Zone 2 (1%). Surface Water Flooding: 1% lies in a 1 in 30 year event. 1% lies in a 1 in 1000 year event |
| Flood Risk RAG Assessment 2023 | - |
| Flood Risk Officer Comment 2023 | - |
| Flood Risk RAG Assessment 2021 | Amber |
| Flood Risk Officer Comment 2021 | The site contains areas at high, or medium risk from surface water flooding and/or the site contains some land in Flood Zones 2 and/or 3 but there is sufficient land in Flood Zone 1 to accommodate at least 5 additional dwellings or an increase of 500 square metres of employment floorspace. |
| Landscape RAG Assessment 2025 | - |
| Landscape Comment 2025 | - |
| Landscape RAG Assessment 2023 | - |
| Landscape Comment 2023 | - |
| Landscape RAG Assessment 2021 | Red |
| Landscape Comment 2021 | The wider landscape setting is largely rural comprising arable parcels of land and villages close by. The parcel of land to the west of Duxford Road benefits partial from containment with large breaks in vegetation along boundaries allowing long distance views to penetrate the site. There are remnants of a hedgerow on site, but not enough to screen views. Parcel east of Duxford Road - There is a triangular plot of woodland which forms part of a County Wildlife Site in between the site and railway line in the north east. The site has a partially enclosed and partially open character making it clearly visible from some areas. The sheer size of this site would merge both village ends and result in an out of scale proposal. Intimate village character would therefore adversely be affected. |

| Available | - |
| Is the site controlled by a developer or landowner who has expressed an intention to develop? | The site was submitted by the landowner and/or site promoter who has confirmed that the site is available for development in the timescales indicated. |
| Are there known legal or ownership impediments to development? | No |
| Is there planning permission to develop the site? | No relevant recent planning history |
| When will the site be available for development? | 6-10 Years |

| Available RAG | Green |
|-----------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| | Green |
| Achievable | - |
| Is there a reasonable prospect that the site will be developed? | The land has been promoted by the landowner and or developer and is known to be available for development. The site has a low existing use value and residential development is likely to be economically viable at an appropriate density. |
| Achievable RAG | Green |
| Capacity | - |
| Prevailing Density (weighted) (dwellings per ha) | 30 |
| Residential capacity at prevailing density | 1642 |
| Estimated employment space (m2) | 0 |
| Estimated start date | 6-10 Years |
| Estimated annual build-out rate (pa) | 120 |
| Development completion timescales (years) | 6-10 Years |

Land south of West End, Whittlesford assessment

| Flood Risk Officer Comment 2021 | - |
| Landscape RAG Assessment 2025 | - |
| Landscape Comment 2025 | - |
| Landscape RAG Assessment 2023 | Amber |
| Landscape Comment 2023 | This is a large site which falls outside the Dev. Framework of Whittlesford. The site is partially enclosed by nearby wooded land associated with large estate back gardens, undeveloped paddocks and a small scale scrap yard. Beyond the boundaries of these land use areas, the site is more associated with the large agricultural fields which line the southern edge of village. Development in this outer area would be incongruous, though small scale and sympathetic development which continues the wooded expression of the neighbouring properties in the smaller northern extent of the site could be acceptable. |
| Landscape RAG Assessment 2021 | - |
| Landscape Comment 2021 | - |
| Biodiversity and Geodiversity RAG Assessment 2025 | - |
| Biodiversity and Geodiversity Officer Comments 2025 | - |
| Biodiversity and Geodiversity Guideline Comments 2025 | - |
| Biodiversity and Geodiversity RAG Assessment 2023 | Green |
| Biodiversity and Geodiversity Officer Comments 2023 | No likely impact on sites designated for nature conservation. The site appears to be arable land with limited ecological value, with no Priority habitats within or adjacent to the site. However, the site may have value for Priority farmland birds. |
| Biodiversity and Geodiversity Guideline Comments 2023 | Development of the site would not have a detrimental impact on any designated site, or those with a regional or local protection. |

| Biodiversity and Geodiversity Guideline Comments 2021 | - |
| Policy RAG Rating 2025 | - |
| Policy Officer Comment 2025 | - |
| Policy RAG Rating 2023 | Green |
| Policy Officer Comment 2023 | Site is not on protected open space designation. Any impact of the proposed development could be reasonably mitigated or compensated. |
| Policy RAG Rating 2021 | - |
| Policy Officer Comments 2021 | - |
| Historic Environment RAG Assessment 2025 | - |
| Historic Environment Comments 2025 | - |
| Historic Environment RAG Assessment 2023 | Amber |
| Historic Environment Comments 2023 | A map of the area and an indication of the number of residential units is all that appears to have been submitted. There is a grade II listed building to the north of the site, and it abuts the conservation area. Development of the site needs to take these constraints into consideration, but the impact could be reasonably mitigated. |
| Historic Environment RAG Assessment 2021 | - |
| Historic Environment Comments 2021 | - |

| Flood Risk RAG | - |
| Assessment 2023 | |
| Flood Risk Officer Comment 2023 | - |
| Flood Risk RAG Assessment 2021 | Green |
| Flood Risk Officer Comment 2021 | The site is at low risk of flooding (within flood zone 1) and no risk from surface water flooding |
| Landscape RAG Assessment 2025 | - |
| Landscape Comment 2025 | - |
| Landscape RAG Assessment 2023 | - |
| Landscape Comment 2023 | - |
| Landscape RAG Assessment 2021 | Red |
| Landscape Comment 2021 | A small site located to the south of the village of Whittlesford. Wide and local views are restricted due to intervening vegetation and built form. Development throughout this site would a significant adverse impact upon the settlement character, not reflect the existing settlement characteristics and unacceptable. However, with a reduction in residential units and with landscape mitigation works this harm would be reduced. |
| Biodiversity and Geodiversity RAG Assessment 2025 | - |

| Biodiversity and Geodiversity Guideline Comments 2023 | - |
| Biodiversity and Geodiversity RAG Assessment 2021 | Amber |

| Biodiversity and Geodiversity Officer Comments 2021 | All new housing developments will require assessment of increased visitor pressure on nearby SSSIs. There are potential priority habitats within the site; including grassland and woodland that are likely to have ecological value. Applications may find provision of a 10% net gain in biodiversity difficult within their redline boundaries, and may need to find off-site compensation to comply with up-coming National legislation and developing local policies. |
|-------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Biodiversity and Geodiversity Guideline Comments 2021 | Development of the site may have a detrimental impact on a designated site, or those with a regional or local protection but the impact could be reasonably mitigated or compensated. GB |
